

## Grayslake Opponent There Friday and in Opening of Regional

### Sequoits Beat Round Lake, Lose to Ela-Vernon Last Weekend

Antioch Township High School's varsity basketball team will play Grayslake Community High School in the second game of the regional tournament at Libertyville, March 3.

The opening game will see the former Northwest Conference champion Barrington playing Wauconda, and in the third game Libertyville will play Round Lake.

On Tuesday, March 4, Grant will play Ela-Vernon and then the semifinals will start. These will end on Thursday and the final game will be played at 8 p. m. Friday, March 7. Barrington and Libertyville are expected to be the strong contenders for the region championship.

At present Antioch, Grayslake, and Lake Forest are tied for third place in the conference standing. Antioch beat Grayslake 71 to 55 earlier this season but the Rams have improved a great deal since then and will provide an interesting game.

The Sequoits continued to find the path slippery and skidded further down the incline of conference standing last Friday when they lost to Ela-Vernon there in an upset 53 to 48.

Coach Leon's men spotted the Bears seven points in the first quarter and then fought brilliantly to tie the score in the final quarter, only to lose in the last two minutes of play.

It was Wilson, who held to two points in the first half, came back with 17 points in the second half and hooked in the field goal that paved the way for Antioch's defeat.

Dwyer put the Bears ahead in the first half, but when the attention of the Sequoit defense was turned to him in the second half, Wilson broke loose.

Art Hanke led Antioch's comeback (continued on page 2)

### Lindenhurst Policeman's Ball Was Huge Success

Despite the inclement weather on Jan. 25, the Lindenhurst Policemen's Ball was a big success. John Slove, chairman of the Police Commission, reports that his efforts and the hard work of the Lindenhurst Police Dept. Board of Trustees and many other people resulted in unexpected success. Mr. Slove estimated there were over 250 persons in attendance.

Among those present at the ball, were the sheriff candidate, Robert (Mickey) Babcox and his wife, who contributed generously to the squad car fund. Contributions are still very welcome and should be made payable to the Lindenhurst Squad Car Fund, c/o John Slove, Rte. 2, Sunset Lane, Lake Villa, Ill.

Mr. Slove has placed the order for a new 1958 Ford squad car and he expects delivery the first week in February. Due to the 100 per cent co-operation of all the residents of Lindenhurst and other people, Lindenhurst is the first village to organize a Police Department and purchase a new squad car within a few months after incorporating.

### H.S. English Faculty Suggests Ways of Improving Program

(Contributed)  
The faculty of the English Department at Antioch High School feels that most graduates of Antioch High have an adequate knowledge and functional command of the English language. It bases this belief on a study of the English grades of recent graduates who have gone into college, of reports from local businessmen who have hired students from the high school, and of comments made by former students themselves regarding their background in English. More than two-thirds of the grades of seventy-four recent graduates who have earned credit in college English are average or superior, leaving only one-third with below average or failing grades.

While many local businessmen have indicated that their employees have had a basic command of the language, several have indicated that some employees needed additional preparation in spelling, a general improvement in neatness, a more careful attitude toward their work, and an ability to express themselves with the public.

Many returning college students have stressed the need for added experience in writing during high school. However, under existing teacher-load conditions an increase (continued on page 5)

## C. of C. to Share Booth With Resort Owners At Sports Show in Chicago Amphitheatre Feb. 21

The Antioch Chamber of Commerce will share with the Chair of Lakes Resort Owners Assn. in a 40-foot booth at the Sportsman's Show February 21 to March 2 at the Chicago Amphitheatre.

The Antioch business men will use 12 feet to display Antioch material, advertising this community as a recreation area and trading center.

The resort owner had a booth last year and got good advertising results.

Joe Patrovsky, who will have charge of the booth, is asking for volunteers to help man it. He says it is fun to talk Antioch before the crowds.

Plans for this event were made Monday at the regular meeting of the chamber.

Secretary Ralph Gresens said that a district meeting has been arranged for the evening of March 12 at Crystal Lake to which Antioch business men are invited. The president of the state chamber will be the speaker.

## Wilmot Five Upsets Salem Central Tues., Snaps Losing Streak

After suffering 14 straight defeats the Wilmot High School Panthers rallied in the second half to upset favored Central High School of Salem, Wis.

The Panthers rang up 24 points to 8 for Central in the fourth period to win by a comfortable margin. Up to then it was a nip and tuck battle.

Wally Partenheimer took scoring honors for Wilmot with 23 points while Ray Lubkeman led Central with 22.

Central defeated Wilmot earlier this season by a 46 to 33 score.

The "B" game was won by Wilmot, 41 to 38.

### Robert C. Bandli, 69, Dies of Heart Attack At Home, Bristol, Wis.

Robert C. Bandli, 69, of County Trunk V, Bristol, Wis., died suddenly of a heart attack, at his home at 12:30 p. m. Thursday, Jan. 30.

Mr. Bandli was born Jan. 22, 1889, at Alma, Wis., and lived in Zion, Chicago, Wheeling, Libertyville, and Gurnee, the latter from 1933-1955, before moving to Bristol three years ago. He worked on golf courses before turning to farming.

Survivors include his wife, Mildred, four sons, Robert, Jr. and Vernon of Bristol, William of Gurnee and Myron of Chandler Air Base, Phoenix, Arizona, two daughters, Mrs. Lorraine Schotanus, Bristol, and Mrs. Dorothy Melius, Waukegan; a brother, Wilmer, and his mother, Mrs. Emily Bandli, both of Grand Rapids, Mich., and seven grandchildren.

Funeral services were held at 2 p. m. Saturday at the Strang Funeral home, Antioch, with the Rev. L. H. Messersmith officiating. Interment was in Hosmer cemetery, Bristol, Wis.

### Tells Prep Students Of Fire Prevention

Arthur Henderson, safety director of the Illinois Agricultural Assn. told Antioch High School students Monday that there is danger of filling a house with latest electrical appliances to the point where inadequate wiring will cause a fire. Flames, explosions, and smoking fires were used to emphasize dangers as they occur. His talk was filled with examples of negligence and its resulting disasters.

He recommended carbon dioxide extinguishers as the most suitable for the home.

### Vacation Next Wednesday

There will be no classes in the Antioch schools Wednesday because of the holiday celebrating the birthday anniversary of Abraham Lincoln, our 16th president.

## White Elephant Sale to Flourish Friday, Saturday

Approximately 30 merchants are participating in the White Elephant sale that will start tomorrow (Friday) and end Saturday.

The committee in charge said it was assured by merchants attending the Chamber of Commerce dinner meeting Monday that real bargains will be offered.

Some of the stores have identified themselves in this sale through a label of a white elephant on the display window.

## Toll Road Construction Halted as Mink Mate

I. J. Cermak has received assurance from the Toll Road Commission that no work will be done near his 240-acre mink ranch, north of Rte. 173 during the mating season.

"The mink are shy and will not mate unless they have serene conditions," Cermak said. He stands to lose thousands of dollars if his 2,000 mink do not reproduce. The brood pens are but 300 feet from the tollway.

In return for silence, Cermak said he made a \$125,000 price concession in selling his property. The company which bisects the ranch mission paid \$18,000 for the right from corner to corner, and \$22,000 for attention to Cermak's animals during construction beyond the breeding season which extends from Feb. 1 to July 15.

### Channel Lake Bowler Mrs. Adelle Sorwell Televised from Chicago

Mrs. Adelle Sorwell of Channel Lake bowled Sunday afternoon on "Bowling Queens" televised over Channel 2 from Chicago.

Although she scored 204 in the first frame, she had tough luck in the second with only 142. Her third frame of 171 for a total of 517 was not enough to beat out her opponent, Opal Reed, of Gary, Ind.

Mrs. Sorwell bowls in Antioch Wednesday night in the Fly By Night mixed league, in which she has on average of 170, and on Friday night in the Pinpointers League, all girls, in which she had a 166 average.

The Sorwells moved to Channel Lake from Chicago in September. Mrs. Sorwell has bowled in several classic leagues in Chicago.

Challengers for the Bowling Queens are asked to appear on the program and are picked from leagues in and around Chicago.

C. E. Hennings, of 50 Hennings ct., was taken to Victory Memorial hospital in Waukegan last Friday by the Antioch Rescue squad. The well known subdivision developer has had heart trouble.

## Telephone Co. May Agree to 25-Year Franchise That It Rejected in Antioch Seven Years Ago

### C. F. Spiering Protests Intersection Plans At Rtes. 173 and 45

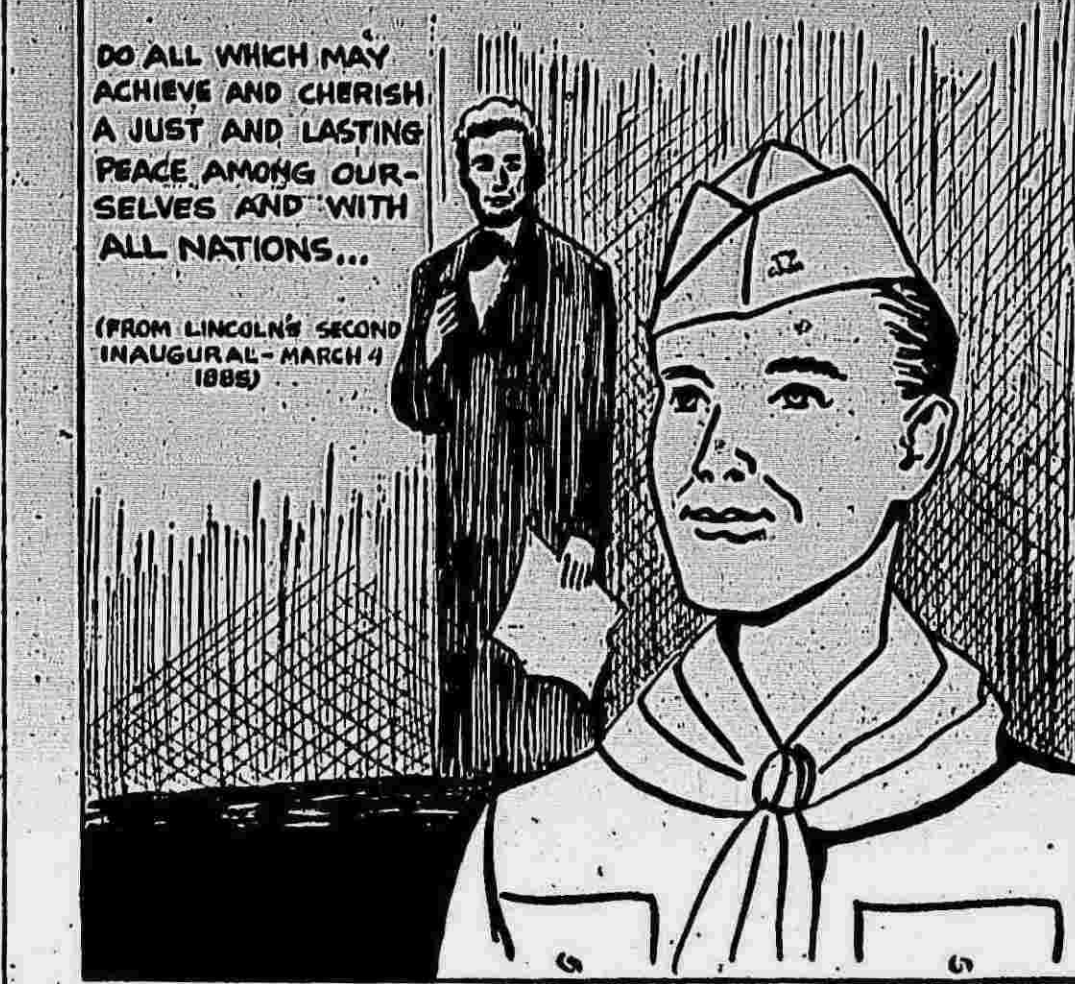

C. F. Spiering, through his attorney Clinton O. Thompson, and fortified with a 100 signature petition, protested before the State Highway engineer at Libertyville last week the installation of medians and islands at the intersection of Rtes. 173 and 45.

The state plans to widen and blacktop Rte. 45 from Grand Avenue to the Illinois-Wisconsin line, buying the northeast corner of the intersection at Hickory corners and installing islands which Spiering maintains will make entrance to his Old Hickory and The Castle taverns and the vegetable market difficult. He wants the intersection left as it is.

The state plans 12 foot lanes, and in Millburn will permit an 8-foot parking space. Although setbacks are to be 60 feet from the center of the road, buildings in Millburn will not be disturbed. In several places 8 feet of private property will be bought to maintain the setback.

There will be no classes in the Antioch schools Wednesday because of the holiday celebrating the birthday anniversary of Abraham Lincoln, our 16th president.

## BIRTHDAY MESSAGE...

## Mirnie C. Kufalk, 83, Long Time Resident Of Antioch Died Wed.

Mrs. Minnie C. Kufalk, 83, died Wednesday at 9:50 a. m. at the Redel Nursing Home, Zion, Ill. Mrs. Kufalk was born November 15, 1874, at Rochester, Wis. She lived at Burlington and Slades Corners before coming to Antioch in 1920.

Survivors are three sons, Roy I., Antioch's postmaster; Clarence and Elmer of Antioch; a daughter, Mrs. Marguerite Hawkins of Waukegan; two brothers, Elmer Grabow, La Jolla, Calif., and John Grabow, of Beloit, Wis.; a sister, Mrs. Bertha Harms of Wilmot, Wis.; eight grandchildren and 5 great grandchildren. She was preceded in death by her husband, Louis C. Kufalk, March 11, 1934.

Private services will be held at the Strang Funeral home, Friday. Interment will be in Hillside cemetery.

Friends may call from 7 p. m. Thursday until noon Friday.

### Change Date on Hearing

The hearing date on the proposal for a referendum to form a Forest Preserve district has been changed to 1:30 p. m. Friday, Feb. 14 in Circuit Court, Waukegan, Judge Bernard M. Decker presiding.

The meeting date of the organization promoting the plan also has been changed to 8:15 p. m. Feb. 18 in the Mundelein Village hall.

### Boy Scout Week

The historic popular conception of a Boy Scout performing his good turn by leading an aged lady across the street will be updated and magnified almost 10,000 times when the entire manpower of the North Shore Area Council, Boy Scouts of America, joins in a yearlong National Safety Good Turn to be launched during Boy Scout Week, Feb. 6 to 12, it was announced by Milton H. Gray, of Highland Park, Council President.

## Telephone Co. May Agree to 25-Year Franchise That It Rejected in Antioch Seven Years Ago

The Illinois Bell Telephone Co. may change its mind about a franchise in Antioch.

When the village trustees put in a bid for 10 free telephones in the public buildings where only two are supplied gratis now, the telephone company through its manager, R. M. Hawkinson suggested this could be done on the basis of a 25-year franchise.

Seven years ago the Board offered the telephone company a 25-year franchise as a substitute for the present 99-year franchise given in 1898, and lasting longer than the substitute proposed.

At that time Manager John Litter wouldn't go before his superiors with less than a 75-year franchise or a perpetual franchise which is offered by some cities and villages. The trustees wouldn't budge beyond the 25 years and the matter was dropped.

"I can't see why the company wants a new 25-year franchise when the one they have runs until 1997," remarked Trustee Ernest H. Glenn. Anyway, it is doubtful whether the eight additional telephones to the sewage disposal plant, village garage, fire chief, and elsewhere in village buildings will be forthcoming until a new franchise is signed.

Village Atty. E. C. Jacobs was instructed to get out the franchise written seven years ago and see how it compares with any new one offered.

### Register To Vote

Deadline for registration of voters and for making transfers of address for those who would vote in the April 8 primary, has been set for March 10. Supervisor Edward Tiede of Lake Villa Township reminds voters of his township. To vote an adult must have resided in Illinois one year, Lake County 90 days and their precinct 30 days.

Supervisor Tiede said that persons may register at his office on Grand avenue next to the Northern Illinois Gas Co., or at the home of Loretta M. Warchol, at Nathan Hale drive and Morton street in Venetian Village.

## Lions Club to Hold Ladies Night Party At McHenry Feb. 17

The committee in charge of arrangements of the Lions Club dinner-dance announced that this year's party will be held February 17 at the McHenry Country Club. The entire facilities of the beautiful club house has been reserved exclusively for the Lions which should make for a gala evening.

Members, their wives and guests will be served cocktails and hors d'oeuvres starting at 7 p. m., followed by dinner and dancing.

Tickets are available to club members at either the State Bank or the First National Bank in Antioch. A stub attached to each ticket, signed and returned to any committee member, will reserve a table for those members and their immediate party.

## Plans Recreation For Young People At St. Peter's Hall

The Rev. Alfred J. Henderson of St. Peter's church is planning to renovate the church hall as a place where young people can find recreation.

This means a new floor, ceiling, kitchen, coke bar, volley ball, shuffle-board, ping-pong tables by way of equipment, and a place to dance and roller skate.

This will be a big project, Fr. Henderson admits, and sufficient money will be needed.

To help Father Henderson with this project, friends of St. Peter's plan a St. Pat's dance and entertainment at 8 p. m. March 15 at the Four Aces.

The committee would like the help of all of the business men and friends of the church.

Fr. Henderson said the furnishing of transportation for the children of St. Peter's school, which he estimates has been \$50,000 over the last 7 years, has been a heavy drain on the treasury which otherwise might have been used for projects such as this.

Lake Villa, Round Lake, Grayslake, and Fremont Center do not have this expense, he noted.

### Father of Mrs. Gaston Dies at Carmi, Illinois

Martin Erkman, 87, of 510 North Second st., Carmi, Ill., father of Mrs. H. B. Gaston of 654 North Main st., died at the Carmi hospital Jan. 31 following a lingering illness.

The funeral service was held at the Kittinger Funeral Home at 2 p. m. Monday with interment in Mapleidge cemetery, Carmi.

Attending the funeral service from Antioch besides the daughter were Mr. and Mrs. Howard Gaston, R. E. Gaston, and Donald R. Gaston.

## Antioch Board Bans Trailers as Homes In Village Confiness

### State Unwilling to Place Stop Light at Main St. and North Ave.

Antioch will have no trailer residences within its borders.

This was the decision of the Village Board Tuesday evening when it unanimously passed an ordinance banning them as a habitat under penalty of a fine ranging from \$5 to \$200.

It was the first move of the village in the way of planning.

Noting problems of trailer courts in other villages, the trustees decided to act before it appeared in Antioch.

The law which declares it illegal to maintain or allow any trailer or to occupy any such trailer within the village limits, does not apply to trailers in transit; unoccupied trailers; or occupied trailers for non-paying guests for not more than 30 days of each year.

Wheels of trailers may not be removed. (The ordinance in full may be found elsewhere in this paper.)

In other business the Board gave permission to the American Legion to hold its annual carnival July 9 to 13 inclusive in the west side of the village parking lot.

Engineer David R. Miller reported that paving of Laursen court at Ida avenue has been completed and has his approval. The matter was referred to committee.

Walter H. Jollie representing the engineering firm of Baxter and Woodman, Crystal Lake, made a bid for the village's road engineering work should the village make a change. The trustees have been irked by the charges of the present representative and are considering a change.

Because the traffic is not yet sufficient District Engineer D. S. Magowan has denied the village a four way stop at Rte. 21-83 (Main st.) and North avenue.

Magowan said that traffic must be 650 vehicles an hour with the lesser highway drawing 40 per cent of the traffic before stop signs will be erected. Main street had but 457 an hour with North avenue drawing 25 per cent during the test last October.

## Wendell Britton, 47, Found Dead Tuesday

Wendell J. Britton, 47, was found dead in his room at 846 Main st. Tuesday by persons who noticed he had not been up and about as usual.

Mr. Britton was born Sept. 9, 1910, in Bristol Township, Wis., and had lived between Pikeville Corner and Antioch all of his life.

Surviving him are his widow, Hazel, two brothers, Harold and Everett of Waukegan, and a sister, Mrs. Brosia Giefer of Racine, Wis.

A private service was held yesterday with burial in Hosmer cemetery near Bristol.

### Police Chief Scott Asks Stricter Laws

Police Chief Walter Scott has recommended revision of the village police laws to make his work more effective.

His recommendation calls for revision of the disorderly conduct and disturbing the peace ordinance calling for stiffer fines and a stronger law; a dram shop ordinance, and a no driver's license law.

The matter was referred to committee for study by the village attorney as to how far village laws can go.

The report of the police department showed a greater payment of parking tickets. The police issued 140 and 92 were paid. Moving violations for January were but six, but old offenses brought the fines up to 12.

There were 7 accidents, two instances of larceny, two fires and two rescue squad calls in the village.

### Father of School Head Dies

Funeral services were held Wednesday morning at Greenup, Ill., for J. R. Whitacre, father of Richard Whitacre, 788 Main st., Antioch, superintendent of the Antioch Consolidated Grade school. The elder Mr. Whitacre, who was in his 80's, died Sunday night after an illness of nearly a year. Supt. and Mrs. Whitacre went to Greenup Monday. Greenup is near Charleston, Ill.

John Bruski, father of James Bruski of Lake Marie, was taken to Victory hospital Tuesday evening for treatment.

## Boy Scout Week February 7 to 13

The 4,700,000 boys and leaders of the Boy Scouts of America will launch a yearlong National Safety Good Turn during Boy Scout Week, February 7 to 13.

The Scouts' national service project was suggested by President Dwight D. Eisenhower, Honorary President of the Boy Scouts.

In a White House message, President Eisenhower told the Scouts:

"In our land each individual is of inestimable worth, yet in no other land do accidents cause a more terrible loss of human life and limb. This fact cannot be passively accepted. We must seek new ways to save the basic resources of our Nation: its people. Encouraged by the splendid results of your Conservation Good Turn four years ago, I now urge you to adopt Safety as your service project for 1958. Through the concerted action of your members, and in cooperation with other organizations, you can alert the public to the urgent need for reducing the tragic toll of accidents.

"This is an opportunity for service to your country in the highest tradition of the Boy Scouts of America."

The Scouts' National Safety Good Turn is being coordinated nationally and locally with other safety programs and campaigns. National safety organizations have advised and assisted Scout leaders in developing plans and projects.

During March, April, and May, the projects will involve traffic safety. Outdoor safety projects will keep Scouts busy in June, July, and August. Home safety will be featured in September, October, and November.

Next October, the Boy Scouts will distribute to approximately 35,000,000 homes a civil defense booklet on family preparedness for emergencies.

## Where Burden of Proof Rests

For some time there has been a considerable controversy over the presence of fats in diets. And this must have left many people wondering, just what will happen to them if they continue to eat foods containing fat, and particularly animal fat.

There is, fortunately, some clarifying evidence. The medical authorities generally reason that so long as a person is in good health there certainly is small reason to alter the normal diet. In other words, if a diet agrees with a man it is probably a sound one. And now some interesting light on the matter has been shed by Dr. Albert H. Holland of the U. S. Department of Health, Education and Welfare.

In the course of a scientific address, Dr. Holland pointed out that it is well established that some common fats of animal origin have a specific cholesterol-raising effect on our blood, and that this effect can be counteracted either by eliminating most of the fat from the diet or by substituting certain acids. There has been speculation that cholesterol may bring on artery and heart impairment. However, Dr. Holland states that "... the exact relationship between cholesterol levels and incidence of coronary artery disease remains unproven."

Then he goes on to list various unanswered questions. "Is the elevated cholesterol level in a patient with coronary artery disease cause or effect? If one lowers cholesterol levels may one not be doing some as yet undiscovered damage of another type? Would this adversely affect the levels of the hormones derived from cholesterol?"

His point is that much more work is needed to answer these and all the other questions involved.

And, so far as our eating habits are concerned, he says this: "Let us not forget that with present dietary habits we have attained the greatest average life expectancy yet achieved in the history of the world. The burden of proof must rest with those who wish to change these habits."

## No Substitute for Printed Word

Man's appetite for news is enormous. We have to be deprived of it before we fully understand how we crave this form of mental nourishment.

A Reuters dispatch tells of an ex-American soldier, captured in Korea, who chose to live in Red China with his Chinese wife. The one extravagance in which he indulges is a subscription to a news agency bulletin printed in English. It costs 15 yuan (\$6.30) a month—one sixth of his income. He told a reporter: "... he felt he must get news somehow."

Too few persons appreciate a newspaper until it is hard to get. Most Americans take it for granted. The ex-soldier has a radio but he finds nothing takes the place of printed news.

## Why Insurance Costs Must Go Up

Insurance costs are going up—a fact which provides one more example of how inflation and other dollar-depreciating forces come straight home to us all.

The "why" of the matter can be simply explained. Since 1950, for instance, the costs of building materials and labor have advanced more than 37 per cent, according to the government-issued Construction Review. This means that every time a fire occurs the cost of making the necessary repairs is far greater than it used to be. Thus, fire insurance rates that once were adequate are no longer so, and rate increases are unavoidable.

That situation is comparable in the case of windstorm insurance. North Atlantic hurricanes alone in 1954-55 produced windstorm losses of over \$250 million and 1957 windstorms in the South and West were in greater number than ever before. So higher windstorm insurance rates are needed to offset higher wind loss payments.

Then we come to the automobile. Modern cars with their wrap-around windshields, complex tail-fin assemblies, Christmas tree tail lights, and other such features, become ever more expensive to repair. Juries tend to bring in bigger and bigger verdicts in casualty cases, even for comparatively minor injuries. Hospital and medical care costs are up. This year, the highway death toll may approach or reach 40,000 and there will be more than 1 million injuries. It all adds up to the plain fact that the insurance companies must meet steadily increasing costs—and the only solution is higher rates.

Finally, here's the point to keep in mind. Over the long-pull, we, the policy-holders, make the insurance rates. If losses soar, rates must follow. If losses go down, so do rates. We can help reduce insurance costs in the future by diligently practicing fire prevention in our homes and places of business—and by avoiding excessive speed and all the other accident-producing driving habits.

## Three Choices

There are three ways to meet pending increases in defense spending—increases which are likely to run into the billions.

One way is to increase taxes. Then everyone will have less money to buy the goods and services that keep America's enterprises running and American workers busy at good jobs.

The second way is to take the lid off the national debt limit, and the the government operate on a deficit basis—that is, by spending more than it takes in and making up the gap by borrowing. Then we will see a new and major wave of inflation that could end in economic disaster.

The third way is for the government to rigorously pare non-defense spending in every possible way. Top authorities say that \$5 billion or more a year could be saved in this fashion.

The third way is the only tolerable choice even though it means curtailment of Federal spending in "untouchable" areas of benefits and projects dear to a lot of people.

## GEMS OF THOUGHT

### Experience

The art of living is the art of using experience—your own and other people's.—Sir Herbert Louis Samuel.

Learn from the mistakes of others—you can't live long enough to make them all yourself.—Anonymous.

Experience is victor, never the vanquished; and out of defeat comes the secret of victory.—Mary Baker Eddy.

All experience is an arch, to build upon.—Henry Adams.

One thorn of experience is worth a whole wilderness of warning.—Lowell.

Experience is the mother of knowledge.—Nicholas Breton.

## AN ORDINANCE REGULATING TRAILERS

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF ANTIOCH, LAKE COUNTY, ILLINOIS:

SECTION 1: Definitions That for the purpose of this ordinance the word "trailer" is hereby defined to mean any vehicle or structure which is suitable for living, sleeping or office purposes and is mounted upon wheels, or is so designed or equipped that wheels or other devices for moving the same can be affixed thereto, and which can thus be transported either by its own power or by external power or effort. This definition shall not include any vehicle, operated upon fixed rails.

SECTION 2: It shall be unlawful to maintain or allow any trailer to be upon private or public property within the Village of Antioch, or to occupy any such trailer, but this prohibition shall not apply to the following: (a) Any trailer which is in transit; (b) Any trailer which is unoccupied and is not offered for lease; and (c) Any trailer which is occupied by a non-paying guest of the owner or lawful occupant of private property upon which the same trailer is located for an interval of not exceeding 30 days in any one year period.

SECTION 3: No person occupying a camp car or trailer shall remove the wheels or any similar transporting devices therefrom or otherwise permanently fix it to the ground in a manner that would prevent the ready removal thereof.

SECTION 4: Any person, firm or corporation violating any provisions of this ordinance shall be punished upon conviction by a fine of not less than Five (\$5.00) Dollars and not more than Two Hundred (\$200.00) Dollars for each offense and a separate offense shall be deemed committed on each day during or on which a violation occurs or continues.

SECTION 5: All Ordinances or parts of Ordinances in conflict herewith are hereby repealed.

SECTION 6: This ordinance shall be in full force and effect from and after its passage, approval and publication as provided by law.

APPROVED:

MURRILL CUNNINGHAM  
President, Board of Trustees

ATTEST:

C. B. SHULTIS,  
Village Clerk.

## Crusade for Freedom

Each year the Crusade for Freedom is sponsored by the Student Council of Antioch Township High School. As in previous years, Council members will enroll as many boys and girls as possible in all schools in the high school area. This year will be the seventh that the Council has sponsored the Crusade in this area. Having contacted the principals or teachers in charge of the various schools, a day was set aside for the enrollment of their students.

The purpose of the Crusade is once again to renew our faith in the cause for freedom throughout the world. The truth dollars we donate will be spent for more transmitters to help broadcast the truth about freedom to the European people behind the iron curtain. Because of our contributions, this worthy cause is promoting the development of a free world.

In the past six years most of the names of our boys and girls enrolled in schools in this area are on the freedom scrolls beneath the big liberty bell in Berlin. As each man or woman or boy or girl signs the freedom scroll, he voices his stand in the cause for freedom. To finance this worthy cause money is needed, but of course donations are solely on a voluntary basis.

From two to six students are assigned to enroll each school in our area. Usually, they are students who have attended that grade school before entering high school. Our high school students will be given an explanation of the drive on the intercommunication system.

There are nine grade schools and one high school in this area, and the enrollment will take place on "Crusade for Freedom Week" on February 18 and 19th. Any parent who desires to contribute a Truth Dollar may do so through his child in this area.

Once again it is hoped that we may have a one-hundred per cent enrollment in all areas. A Freedom Scroll will be left in each school for absent students to sign, and a contribution box will be left in case those students who forgot their money or were absent wish to give. It is desired that all will sign the scroll whether or not a

contribution is made.

The following days have been set aside in the local area at which time the Student Council will make their contacts in the local schools:

February 18:— Antioch Grade, 9 a. m.; Hickory, 1 p. m.; Emmons 11 a. m.; St. Peter's, 9:30 a. m.; Prince of Peace at Lake Villa, 1 p. m.

Feb. 19: Lake Villa, 9 a. m.; Grass Lake, 9 a. m.; Channel Lake, 9 a. m.; Millburn, 1 p. m.; and Antioch High School, 1:30 p. m.

## Grayslake Opponent.....

(continued from page 1)  
back rally in the second half and chalked up 20 points for the evening. Wayne Herbst was limited to four field goals, which is much less than his usual accomplishment.

The Sequoits were hampered by the absence of Gerald Dittmer who was sidelined through an injury received in an accident, and Paul Magiera, the sixth man on the squad.

In the preliminary, the Antioch Frosh-Soph team lost to Ela's underclassmen 53 to 46.

Saturday night's game with Round Lake was a different story. The Sequoits shook off their three-game losing streak by defeating Round Lake 70 to 39.

The Panthers started out strong and had a 6-4 lead in the opening moments, but the Sequoits took over at that point and scored nine straight baskets for a 40-22 lead at the half and 62-25 by the end of the third period.

Coach Leon used substitutes in the fourth quarter against the

Round Lake team made up mostly of sophomores.

Art Hanke again was the top point maker with a total of 22, followed by Dick Behrens' 16, and Wayne Herbst's 10. Dick Hansen was high point man for the Panthers with 16.

Antioch will play away from home this week-end. The Sequoits will give a preview of the regional tournament by playing the Grayslake Rams at Grayslake Friday, and on Saturday night will play McHenry there. Both games will be hard fought. Next Tuesday the Sequoits will play Grant at Ingleside. Enough said.

The Frosh-Soph team lost a heart-breaker overtime game at Round Lake Saturday 47 to 45.

The Junior Varsity won from Ela-Vernon there Monday 43 to 40. Don Pyle was high man with 19 points. It was the third victory for the J-V's. They have won from Ela, Round Lake and Grayslake, and lost to Round Lake.

The summaries of the varsity games follow:  
Round Lake (39) FG FT PF TP  
Hanson, f 7 2 3 16  
Henning, c 1 0 2 2  
Coon, g 3 5 4 11  
Johnson, g 1 2 4 4  
Mahoney, f 0 4 0 4

## Antioch Student Council Sponsors Var. Shows

It has been the custom for the past five years for the Student Council of Antioch Township High School to sponsor a series of Variety shows presented by the four classes. The classes are always given a choice as to the type of show they wish to present. Two plans are presented to the classes. The first one provides for individual shows, one presented by each class. This plan has many advantages among which are:

1. More people have a chance to perform.
2. There is variety of acts when taken from each class.
3. This is a very democratic process because even people without special skills or ability may participate.
4. This plan provides open class competition so that anyone may participate.
5. Sponsorship is in the hands of individual class sponsors in class competition and is supervised by an over-all supervisor for the community presentation.
6. All four classes have an equal share of the profits.
7. Provides for equality of all classes.

However, Plan No. 1 has several disadvantages, among which are: The same students participate each year; they do the same things year after year; anyone can participate, even a person without ability; a class, knowing it has to present a program, may just scrape together a show; too much pressure from classmates to secure participants; too much repetition in all four shows.

Plan No. 2 favors the presentation of one large variety show with anyone from any class participating provided he passes the auditioning committee. This committee consists of four faculty members, four students and the principal who judge these acts on the basis of originality, talent and over-all presentation. This second plan permits the presentation and final eliminations to be in the hands of the supervisor, if the act has not been sufficiently practical or lacks the qualities of being a good number for presentation to the public. This plan has a number of advantages which seem to make it a very fine plan. They are:

Good talent will be presented; it will provide one good program instead of four average ones; if anyone really wants to be in this program, he will have a good act; he will be judged for his talent and originality, not his popularity; the best talent will be rehearsing under the direction of one supervisor; continuity is more stable in this type of production.

Disadvantages of this plan are: There will possibly not be as much competition; the auditioning committee might not take into consideration the likes and dislikes of all people; partiality may be shown in the auditioning; underclassmen may not wish to compete against upperclassmen; this type of program is limited to real talent; probably not as many students could enter, though this is not definite; practice sessions will be longer and more difficult to organize.

After each class decides which of the plans to use, the Student Council makes the final decision as to which plan is to be used, based upon the decisions of the classes. A date is set for the presentation

of each class show which is under the supervision of the respective class sponsors who arrange for auditions and approve all acts being presented. They also arrange for practice periods.

After the presentation of each show, the Student Body votes upon each act by rating them from one to five points, each on the basis of talent, originality and over-all presentation. These sheets are collected by the class president and representatives to the Council who, with their sponsors, will count them. The results are placed on a final tally sheet and submitted to the Student Council which officially releases the results through the office.

The five highest rated acts from each class show are presented to a faculty-student committee which rates these acts and organizes a well-balanced program to be presented to the public. This final presentation is under the direction of one supervisor.

The proceeds from the Community Show are divided among the four classes and the Student Council. The Council assumes all costs, makes the tickets and programs, provides the ushers and helps in any other possible way.

The community responds well to this type of program. A great number of families are represented, so a good crowd is always assured. The admission is kept low, never more than 40 cents for adults, for the real purpose is not to use the affair as a money-making project, but to promote the spirit of co-operation and good will among all and to develop a good school-community relationship.

## HEALTH HINTS

By Dr. Frank G. Flourens, President, National Chiropractic Association

### Child Diet - The 'Finicky' and 'Good Eaters'

The child who is "finicky" started when mother decided to "coax" him to eat something "good for you." The temptation to give a child the things he likes best opens the way to improper diet. In short time, the youngster craves attention, rejects foods not on the "preferred" list, and may induce self-imposed malnutrition. Children who have the right foods prepared for them on a "take it or leave it basis" soon become hearty eaters. A child should never be asked if he wants a certain food. There should be no choice!

Children's diets should be high in proteins—the "building blocks" of the body, with starches and carbohydrates for energy, and sufficient balancing minerals. Milk is a necessity, or if this is rejected, more meat, broth, eggs, cheese, gelatin, peas, beans, lentils, and nuts—especially lentils, which are high in protein and also have needed minerals. Vegetables and fruits containing important vitamins are very essential to the health of a growing child. These vegetables should be washed carefully, because of insect sprays. Sugars, starches, and fats provide fuel and energy. They should be reduced in quantity during the summer; increased in winter.

A child's diet should be carefully watched. If there is constipation, fruits and vegetables should be increased. A tendency to colds should be counteracted with a generous daily portion of orange, lemon, lime or grapefruit juices. Some children need more than the parent's supervision, and must have individual, professional attention. A chiropractor should be consulted for this is part of his friendly health service.

If winter comes, can Christmas bills be far behind?—Changing Times.

## BETTER SCHOOLS — AND YOU

by HENRY TOY, Jr., President, National Citizens Council for Better Schools

### YOU—SCHOOL BOARD CALIBER?

It's been said that when our school board meets, it's America's most important board meeting. But even though our school boards have the legal responsibility for operating our schools, not much attention has been paid to the qualifications for school board membership until recently.

Two major studies now bring to light what the board members themselves, school superintendents and citizens in general think about the traits school board members need. The National School Boards Association asked board members and the general public, while the University of Chicago's Midwest Administration Center asked the superintendents. Here are some of the things those studies reveal.

All agree that, to be a good school board member, you've got to have the time to devote to the job. Incumbent board members put this qualification first, probably because they're most aware of the time that's needed for meetings, for study and for liaison with the public.

All are agreed, too, that the board member must be committed to the importance of the public education. Although the public believes a man or woman who has already proved a success in community leadership is the best board member, the incumbents think this qualification is about third. Superintendents would list a good education as a first qualification, although the other two groups weren't sure just what education a board member should have—probably high school, they thought.

Age seems to have some bearing with all three groups believe-

ing a man or woman under 60 would be better qualified. Sex has no bearing—either men or women could be effective.

Most everybody felt that the board members with children would be more understanding, although there was some feeling that the segment of the community without children should be represented. There was unanimous agreement that board membership should not be used as a stepping stone to a political career.

Underlying all these various answers was the feeling that board membership requires more study and training than ever before. The superintendents in particular would welcome more good study helps for the member who has just gone on the board. In fact, the superintendents study says that a board member really isn't very effective until after he's served at least one year.

From what I have observed, more and more good people who are truly community leaders are running for the school board. This is a healthy sign, I think, because those few people who make up the local school board are really deciding our children's and our country's future.

If you would like a free booklet called "How Can We Help Our School Boards?", write Better Schools, 9 East 40th Street, New York 18, New York.

## Freshmen Medical Students Set Top Enrollment In '57

CHICAGO—Of every 100,000 persons in the United States, 4.7 were enrolled as freshmen in American medical schools during 1956-57.

In fact, there were more freshmen medical students that year than ever before: 7,791, compared with 7,686 in 1955-56, according to the 57th annual report on medical education made by the American Medical Association's council on medical education and hospitals.

However, the number of 1957 graduates (8,796) from 78 approved four-year schools was slightly smaller than the 8,845 graduated in 1956.

The 7,791 freshmen part of 28,652 students enrolled in the 78 four-year approved medical schools and four schools of two-year basic medical science in the U. S. 1956-57 was the eighth consecutive year that a new record in total enrollment was established, the report said. In 1956-57 there were 28,652 students enrolled.

In addition to teaching these medical students, the schools also undertook to teach more than 62,000 other undergraduate students in allied medical fields. These were in dentistry, nursing, pharmacy, x-ray, and medical technology, arts and science courses, physical or occupational therapy, and medical records and medical librarianship. The schools also assisted in the education of interns and residents and practicing physicians doing postgraduate study.

The schools spent more than 200 million dollars in 1956-57, the report said.

## Life Span Still On The Increase

NEW YORK—America's wage-earners and their families continue to gain in average length of life, according to statisticians of a major life insurance company.

Average length of life among millions of industrial policyholders reached 70.2 years in 1956; a slight gain over the preceding year, the statisticians report.

Among these insured persons, the gain in longevity has amounted to 4½ years since 1946, 10 years since 1936, and 24 years since 1909. In 1879-1894, the average lifetime was only 34 years.

The average length of life of the industrial policyholders has increased more rapidly than that of the general population of the United States. In 1909, for example, the longevity of these policyholders was about six years less than that of the population as a whole.

## 6,700 Foreign Physicians Study In United States

CHICAGO — More than 6,700 foreign physicians were taking advanced medical training in American hospitals in 1956-57, it was reported.

The study covered only interns and residents who had both a foreign citizenship and permanent residence in a foreign country. It did not include displaced persons resettled in the U. S. or foreign citizens who have immigrated to the U. S. for permanent residence.

There were 6,741 foreign physicians serving internships or residencies in 797 American hospitals. Of these physicians, who came from 88 countries, 4,753 were residents and 1,988 were interns.

The physicians were in 44 states, the District of Columbia, Hawaii, and Puerto Rico. Four states, Idaho, Nevada, New Hampshire, and Wyoming, did not report any. About one fourth (1,673) of all the foreign doctors were in New York state. More than 100 each were in Ohio, Illinois, Massachusetts, Pennsylvania, New Jersey, Missouri, Maryland, Michigan, Texas, the District of Columbia, Connecticut, and Minnesota.

## Colleges Offer Group Insurance Programs

NEW YORK—Group life insurance is provided as a fringe benefit at 38 of 49 colleges and universities which replied to a questionnaire sent to 50 such institutions by the Columbia University Committee on the Future of the University.

Among 31 benefit programs covered by the survey, group life policies were surpassed only by retirement programs, on 48 campuses; salary during disability, 47; insured medical benefits, 46; and travel expenses to meetings, 45.

Of the 38 colleges and universities providing group life insurance, 19 extend it in reduced amounts to retired employees, too.

### Tear Gas Raid

DETROIT—A New York diamond salesman told police here he was robbed of an estimated \$500,000 in diamonds by a lone bandit who fired a tear-gas shell at him as he entered the lobby of a downtown building. The salesman chased the bandit to the street but failed to catch him.

## Library News

### New Memorial Books at Library

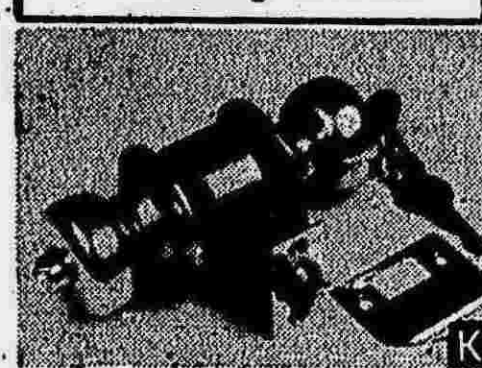

The opportunity to share in the philosophy and works of a strange and wonderful man is offered in the book, "A Testament," by Frank Lloyd Wright. Mr. Wright has illustrated his book with drawings and photographs and has expounded the relation of man and architecture with many a fascinating sidelight. "A Testament" is available at the Antioch Township Library in memory of Hans Meyer.

Ruth Underhill presents an absorbing account of the Navajo Indians from the time of their myth-shrouded appearance in the Southwest to their present-day position as America's largest Indian tribe occupying a reservation of fifteen million acres. "The Navajos" was given to the library in memory of Mrs. Edith French.

The visionaries, the fanatics, and the patient doers who helped to build our America are described by Stewart Holbrook in "Dreamers of the American Dream." Some were failures, some were reformers, some were off-beat characters with a fixed idea, but their individual efforts combined to bring about many needed changes. "Dreamers of the American Dream" was given to the library in memory of Raymond Robinson.

One of the best known American history books is "The Rise of American Civilization" by Charles A. and Mary R. Beard. It's addition to the library's shelves is a much needed achievement and an advance in the history section of the library. "Diary of America" is another useful addition to source materials in American history. Josef and Dorothy Berger have culled the diaries of public figures and plain citizens from Columbus to our own time to give us a "you-are-there" picture of our country. "Rise of American Civilization" and "Diary of America" have been added to the library in memory of Miss Elizabeth Webb.

## The Key Facts

Few but America's 4,000 locksmiths ever think much about keys, but we speak of their importance all the time.

A "key" man is vital to his team or company. So is a "key" idea. We often seek the "key" to a problem or puzzle, and if we don't find it we may get all "keyed" up.

Copper, a "key" metal in national defense, communications and appliances, is also the historic metal of keys. The early Egyptians made the first keys—primitive wooden devices. But the earliest metal keys found in the ruins of Pompeii were made of bronze (copper plus tin). To this day keys are made of copper, now alloyed with zinc and nickel as well as tin.

The use of copper alloys for doorknobs also has historical precedent. The main doorknobs in castles of old were often brass, ornately designed. In the days when Gilbert and Sullivan wrote of the sea captain whose career began when "he polished up the handle on the big front door," copper alloy handles and knobs were used almost exclusively on the doors of the wealthy. Today, the gleaming metal is still a favorite, and is used for knobs and finishing hardware inside the house as well as outside.

The "key" metal, one might say, has had a bright history.

For quick results, place a want ad by calling 43 or 44.

## 124 CALORIE TWO-IN-ONE DESSERT

Counting calories but love desserts? Here is a recipe with only 124 calories a serving that will top off any meal with a delicious treat that respects the waistline. It's actually two desserts in one and baked in a single dish. The fresh fruit flavor of creamy-smooth lemon pudding topped with golden lemon cake is a combination to satisfy both the weight watcher and those fortunates who need not bother with calories. Lemon Sponge Pudding, made with New Pet Instant Nonfat Dry Milk, is just one of many delightful treats that can be made with this low fat sparkle and vitality product.

### LEMON SPONGE PUDDING

½ cup sugar  
¼ cup sifted all-purpose flour  
¼ teaspoon salt

### ½ cup New Pet Instant Nonfat Dry Milk (in dry form)

1 Tablespoon grated lemon rind  
¼ cup lemon juice  
3 eggs, separated  
1 cup water

Sift sugar, flour and salt into 2-quart bowl. Mix in New Pet Instant Nonfat Dry Milk. Stir in lemon juice, lemon rind and well-beaten egg yolks. Gradually stir in water until smooth. In a 1-quart bowl, beat egg whites with rotary beater by hand, or with electric beater at high speed, until stiff. Fold into egg yolk mixture until well-mixed. Pour into a 1-quart baking dish. Set in shallow pan holding about 1-inch of hot water. Bake near center of 350 oven (moderate) for 35 to 40 minutes, or until top is light brown and mixture is firm. Serve warm. Makes 6 servings. 124 calories in one serving.

## ECONOMY TV TOPICS

(By Harold "Pete" Peterson)

### SLOW-POKE SPUDNIK

If you think the spudnik is fast, think about your television signal for a moment. 186,000 miles per second; a continuous bombardment to your antenna. That's why the quality of your antenna is so important for the best reception.

Also, the proper installation of an antenna is most important, too, for the signal to reach your TV set without interference. Wrong positions or bad installation can cause ghosts and snow glare on your screen. It is surely the eyes and ears of your television set; as important as the picture tube.

We have complete knowledge and experience at ECONOMY TV on Rte. 173, 1½ miles west of Antioch, about this area in regard to antennas. Phone ANTIOCH 1454 for this problem.

# SOCIETY EVENTS

## Women's Club Hears Talk on Abe Lincoln

Approximately 40 members and guests heard Dr. James Kopriva speak on the life of Abraham Lincoln at Monday's meeting of the Antioch Woman's Club. Beautiful corsages were given to six new members.

Special guests were Mrs. Ann Kopriva, mother of the speaker, and Mrs. Kopriva, his wife.

The Green Thumbers will meet at 1:30 p. m. Monday at the home of Mrs. Frank Pechousek, 752 Main st.

The Literature Group will meet at 1:30 p. m. Thursday, Feb. 13 at the Library.

Refreshments were served by the hostess committee comprising Mrs. Frank Powles, Mrs. Arthur Becker, Mrs. Donald Chiappetta, Mrs. Edward Cranley, Mrs. O. R. Kresse, and Mrs. William Keulman, Sr.

## Town-Country Show Of Art Feb. 13 at Grayslake Church

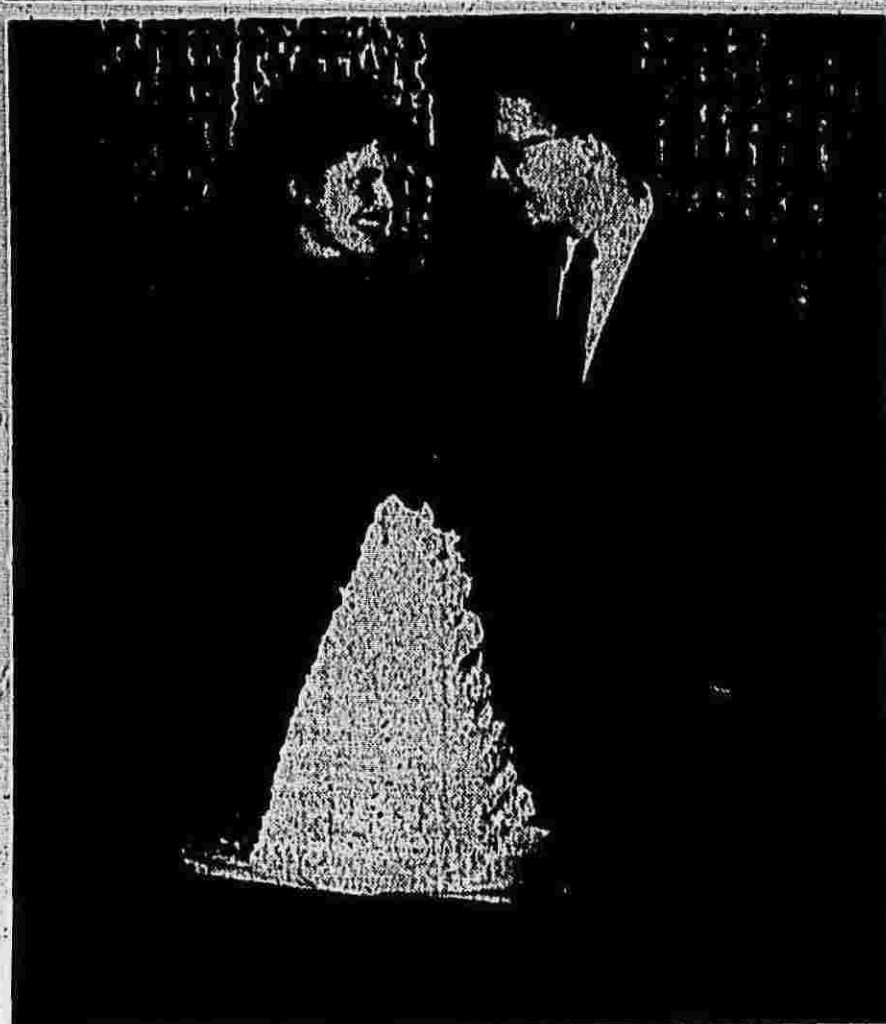

The first Lake County Town and Country Art Show will be held on Thursday, Feb. 13, according to an announcement by farm and home advisers Ray T. Nicholas and Helen Volk. The Lake County show will be held at the United Protestant church in Grayslake, corner Whitney street and Park avenue from 1 p. m. to 9 p. m. Entries can be brought in between 8 a. m. and 10 a. m. the day of the show.

The County Town and Country Art Show is a preliminary to the State Town and Country Art Show to be held in connection with the State Farm and Home Festival at the University of Illinois March 27, 28, and 29.

A judge from the University of Illinois will select from the entries in the County Show exhibits for the State Show. Only those entries submitted in the County Show will be eligible for the State Show, say the Farm and Home advisers, under whose supervision the local show is being held.

The Lake County Show is open to all amateurs living in Lake County.

## Bensons Cut Farewell Party Cake

The Rev. and Mrs. Howard Benson prepared to cut a cake designed as a church which was provided at a farewell party in their honor last Friday evening at the Methodist Church. Several hundred persons filled Wesley Hall and wished them good fortune in their new assignment as organizers of a new church at Hoffman Estates in Cook County.

The exhibit will be confined to recent original work in oils, water colors, pencil, charcoal, pastels, ink or any media on paper, canvas, or flat surface; ceramic pieces, metal enameling, and wood carvings not to exceed seven pounds in weight or a cubic space of 12"x12"x12". (Numbered pictures are not eligible.)

Each exhibitor may submit up to three entries, and all entries should be suitably framed or mounted for purposes of protection and attractiveness in display.

Entry forms for making exhibits in the County Show can be obtained from Ray T. Nicholas, Farm Adviser, P. O. Box 177, Grayslake, or Helen Volk, Home Adviser, 355 N. Milwaukee Ave., Libertyville, Ill. Entry forms not obtained in advance will be available at the time when entries are brought to the show on Feb. 13.

No entry fee will be charged for the County show. However, a one dollar fee will be charged for each entry selected for the State show.

## Farewell Supper Given For Howard Bensons at The Methodist Church

Several hundred members and friends of the Methodist church gathered at Wesley Hall last Friday evening at a potluck supper as a farewell to the Rev. and Mrs. Howard Benson who will soon take up residence at Hoffman Estates in Cook county where Mr. Benson will organize a Methodist church in this new community.

Charles Watson, lay leader, presided over a brief program, which included two selections by the choir under the direction of Kenneth Smouse. Douglas Frazer, pastor's assistant, offered grace.

Special guests introduced included the Rev. Gerald Robinson of the Lake Villa Methodist church; Mr. Benson's parents, Mr. and Mrs. Clarence Benson of Oak Park, and Mrs. Benson's parents, Mr. and Mrs. George Anderson of Chicago.

The program included the cutting of a church shaped cake donated by the Merry-Go-Round bakery and the presentation of a purse to Mrs. Benson through a "magic table" over which she waved a wand. The Bensons were asked to purchase something as a memory to their Antioch friends.

## Receives Award

Mary Ellen Cranley, 17, daughter of Mr. and Mrs. Edward P. Cranley, Rural Route 2, Antioch, has been named "Betty Crocker Homemaker of Tomorrow" at the Convent of the Sacred Heart in Lake Forest.

She received the highest score in a written examination on home-making knowledge and attitudes which was administered December 3 to girls in the Convent's graduating class.

Miss Cranley received an award pin designed by Trifari of New York and is eligible for further competition toward scholarship awards at a later date.

## Gets Bid to Science Honorary

Howard Ballwanz, son of Mr. and Mrs. Frank Ballwanz of 204 East Jeanette Place, Mundelein, formerly of Antioch, has accepted the invitation of membership to Sigma Zeta, national honorary science fraternity. Howard is at Northern Illinois University, preparing for teaching. He is majoring in mathematics and minoring in social science.

## Parents of Son

Mr. and Mrs. George Hermanek, of Grass Lake, Antioch, are the parents of a son, born at their home February 1.

## Royal Neighbors Install Officers

Marion Kieven, left, was installed as oracle, and Gladys Lokke, right, as marshal by Irma Hostetter in services conducted by the Royal Neighbors on Jan. 28 at the American Legion Hall where the lodge meets.

## Women for Babcox

### Attend Luncheon Monday

A luncheon, held Monday at the Swedish Glee Club, Waukegan, was attended by 30 women who are interested in backing Robert "Mick" Babcox for sheriff in the forthcoming primary in April. Babcox was present at the luncheon and addressed the group.

It was announced that there will be a meeting of the regular women's group at 8 p. m. today at the Babcox Headquarters, Karcher Hotel, Waukegan. Anyone interested in attending will be welcomed.

## Eppers in Germany

U. S. FORCES, GERMANY, (AHTNC)—Army Pvt. John B. Eppers, son of Mr. and Mrs. Raymond Eppers, Loon Lake, Antioch, recently was assigned to the 8th Division in Germany.

Eppers, a member of Company B of the division's 6th Infantry, entered the Army in May 1957 and received basic training at Fort Riley, Kan. He arrived in Europe last month.

The 21-year-old soldier was employed by Tea Time Products, Chicago, before entering the Army. He attended Antioch High school.

## EVENING CIRCLE TO MEET NEXT THURSDAY

The Evening Circle of the W. S. C. S. will meet at 8 p. m. Thursday, Feb. 13, at the home of Mrs. Kate Haak, 439 Lake st., with Mrs. Louise Palm acting as co-hostess.

Mrs. Peggy Carr will open the meeting with devotions and a film will be shown, entitled "Young Brothers."

Frances Fox and Robert Poser, both of Antioch were among the medical patients admitted to Victory Memorial hospital, Waukegan, Monday.

## Marine Is Promoted

Robert E. Enis

Marine Robert E. Enis, son of Mr. and Mrs. Vincent Enis of 603 Highland Ave., Antioch, was recently meritoriously promoted to the rank of Corporal at Camp Pendleton, California.

Corporal Enis has been serving with the Marine Corps since October, 1956, and is presently a member of the 7th Marines, 1st Marine Div.

## Prin. Dittman Appears

### On Panel Discussion Of School Board Assn.

Principal Albert Dittman participated in a panel discussion at the winter conference and dinner meeting of the Tri-County Illinois Association of School Boards today. The meeting was held at the Conrad Hilton Hotel and the topic for discussion was "Using Local Resources for the Enrichment of Learning."

Principal Dittman explained how the Antioch High School is utilizing human resources in the community—particularly the program inaugurated by the business education department in cooperation with William Brook, Ted Larson and Jack Fields.

Another program described was the chemistry program initiated by Dr. Calvin Midgley through the instruction of chemistry teacher Elroy Robinson. A brief explanation also was made regarding the lay citizens' committee studying community unit school organization.

## REBEKAHS HOLD SCHOOL OF INSTRUCTION

Lakeside Rebekah Lodge No. 82 held a school of instruction February 5 at 3 p. m. at the I. O. O. F. hall. A pot-luck supper was served to the members and their families. A regular meeting was held at 8 p. m.

"Many a man thinks he's going places when he's really being taken!"—T. Harry Thompson.

## MOOSE TOPICS

The members who attended the Pancake supper and Carnival Friday night sponsored by one of the committees of the chapter enjoyed the food and joined in the fun.

Sunday, Feb. 9, at 2 p. m. Moose Home, Antioch, is the date, time and place of the Moose Legion festival. All members of the Moose and the Legion are invited to attend with their ladies. This will be a district affair including the Kenosha, Racine and Elkhorn, Wis., lodges.

We all wish a speedy recovery to Ken Van Patten and Walter Kuligowski, who are recuperating in hospitals in Waukegan and Chicago.

The Moose bowlers are idle on Sunday for two weeks due to the tournament at Antioch Recreation. Get set, bowlers, for another Saturday night get-together party. The date will be announced next week in this column.

Roger Plechaty returned home recently after spending three weeks at Bad Axe, Michigan. Roger has been appointed as field man for the Ace Merchandising Service. He had been employed with the Ace Hardware Company of Antioch, formerly the Coddington Hardware. He is the son of Mr. and Mrs. Robert Plechaty, of Lake Marie.

## Rebekahs Hold Installation

Kay Cameron, left, Waukegan, served as installing deputy president in giving the oath of office to the new staff of the Antioch Rebekah lodge at its meeting in the I.O.O.F. hall Jan. 28. From left to right, the others are, Undine Oorkins, retiring noble grand; Millicent McCauley, incoming noble grand; and Mildred Black of Highland Park, installing deputy marshal.

## HOLY NAME MEN OF ST. PATRICK'S CHURCH SPONSOR DANCE FEB. 8

The Holy Name men of St. Patrick's are sponsoring a Pre-Valentine dance Saturday, Feb. 8, beginning at 9 p. m. at St. Patrick's new school auditorium located on Wadsworth road in Wadsworth, Ill.

The proceeds of this affair will be used to defray the expenses on new metal chairs for the auditorium.

Bob May and his orchestra will furnish the music and a guest caller will call the square dances during the dance breaks.

The program for the evening will consist of a square dance exhibition performed by a group from Kenosha, Wis., a grand march and ladies' choice dance.

Mr. Don Kruel and Mr. Roman P. Bohn are co-chairmen, assisted by A. Kelly, E. Picktel, J. Lahey, J. Taylor, C. Hogan, W. Hogan, D. Smith, E. McNamara, J. Stephenson, J. Umek, R. Ceisla, E. Leable, G. Leable, G. Shea, B. Butwil, N. Iwanski, B. Barbour, G. Canfield and J. Ludas.

Food and refreshments will be served throughout the evening.

The committee extends invitations to their friends and parishioners and any one else who is interested in enjoying a pleasant evening.

Mr. and Mrs. Alonzo Runyard, Antioch, have purchased a lot on Third Avenue, in the Desert Sage district, Mesa, Arizona, where they are building a new home, which they plan to have completed on or about the first of April.

## College Students Of Today Not As Wild As Formerly

LOS ANGELES—If you think the younger college generation is going to the dogs then you're barking up the wrong tree, according to a University of California dean.

In a study of the morals and manners of college students of past generations, Adolph Brugger, Assistant Dean of Students at UCLA, writes: "The earliest accounts of university life quickly dispel the illusion that the medieval undergraduate was devoted to Biblical study and religious virtue."

Records of Italian courts of law in the 13th century, Dean Brugger said, have preserved a tedious detail of petty and not-so-petty offenses—quarrels with tradesmen, armed attacks on citizens, cutlass duels in the classroom, the abuse of women, robberies and "lesser riots."

"Again, a century later, we read of the Town and Gown Riot at Oxford which lasted for almost a week, resulting in the death of more than 50 students and townsmen."

At Leipzig there were graded penalties "for him who picks up a missile to throw at a professor, him who throws and misses, and him who accomplishes his fell purpose to the master's hurt."

## U.S. Opens Doors Wide To Sesame

WASHINGTON—The United States has opened its door to sesame.

Though sesame was one of the first seed plants cultivated by man, the tropical herb has only recently been grown as a commercial crop in this country.

Sesame seed has many uses, ranging from stock feed to medicine and cookery. Most familiar as a garnish on baked goods, the seed is also used as a seasoning and as the chief ingredient of "halva," a confection that originated in the Mediterranean area.

The seeds yield half their weight in oil that is highly resistant to rancidity and suitable for all edible-oil uses, such as salad dressing and shortening. The oil goes into cosmetics and soap. It is used as a carrier of certain drugs, including penicillin.

## House Flies Used to Test New Compounds

WASHINGTON—The common house fly may become an important test organism for the rapid screening of tumor-inhibiting compounds intended for use in medical treatment of humans, the U. S. Department of Agriculture reports.

In trials made during the past few months, USDA insect physiologists found that several anticancer compounds act as inhibitors of ovarian growth in female house flies.

The tests were undertaken to find a chemical that would cause sterility in insects and eventually lead to an effective means of insect control.

House flies complete a life cycle in slightly more than 2 weeks. They are physiologically similar in many ways to higher animals, as well as to other insects. With minimum space and effort, thousands of flies can be reared daily by non-professional workers, at low cost, for laboratory use. Only 30 to 40 flies are needed for a single test. Mice and rats, normally used in screening tumor-inhibiting materials, require months of effort in breeding new strains and in rearing the animals to maturity.

## Jetliners Will Fly Cross-Country

WASHINGTON—New Yorkers will soon be able to run out to California for lunch and be back home in time for dinner.

Fastest commercial flights across the continent now take eight to ten hours. Round trips in about the same time will be possible on American-built jet airliners expected to start hauling passengers in the autumn of 1958.

In one minute a jetliner flying from New York will be high over New Jersey. In 10 minutes it will have crossed New Jersey and be roaring over Pennsylvania. In an hour it will bypass Chicago. In about four hours it will land in California.

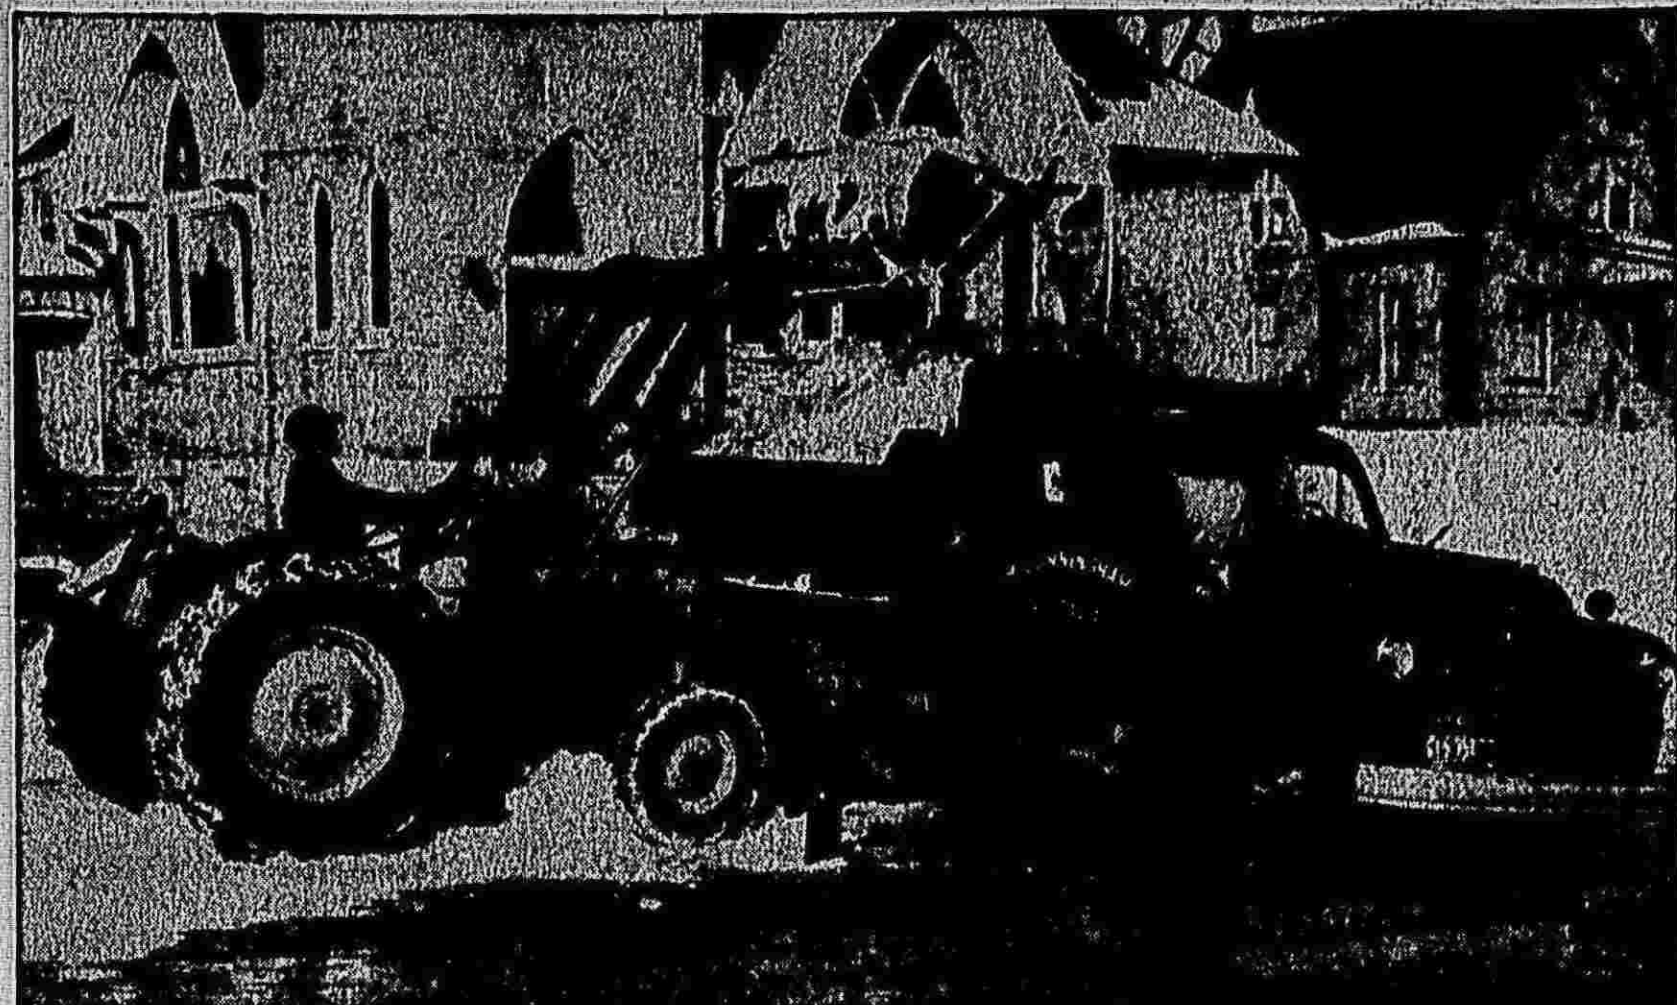

The Civil Aeronautics Administration says that jet planes may replace piston-driven aircraft entirely on long hauls. Jets are most efficient at high altitudes on sustained runs.

Silencers will make jetliners about as quiet as the DC-7 used today by many air lines. Some jetliners may be even quieter. In any case, a jetliner gets out of hearing quickly.

## Air Travel Up

NEW YORK—Noting that travel by air has zoomed upward almost as fast as the jet planes themselves, a new Twentieth Century Fund report points out that in 1955 domestic airlines carried 679,000 passengers while in 1953 about 26 million were carried.

## Modern Equipment Used in Removal of Snow From Streets

Antioch village workmen are shown in the process of loading and hauling snow from the village streets following the recent snow storm. Mayor Murrill Cunningham furnished some of the equipment and it was noted at this week's Village Board meeting that the village doesn't have a big enough truck for snow hauling. "We need another truck," said Cunningham.

## Completion of Driver Training

Announcement was made today by Principal A. H. Erickson that 50 students at Salem Central High school have just completed a classroom course in driver education. Student certificates indicating satisfactory completion of the program have been issued by the motor vehicle department. They are accepted in lieu of the knowledge test of application if made within one year for a permit to learn to drive.

"The most important objective of a driver education course is to help young people become better citizens through the acquisition of knowledge and improved attitudes in relation to the proper use of motor vehicles under all conditions. Accident statistics reveal that the majority of traffic accidents are brought about by human errors," the principal said.

The instructor, D. W. Grams, has devoted many hours to acquaint the students with the rules of the road and good driving practices. Much time was spent on evaluating the physical, mental and emotional qualifications of drivers and understanding the application of these factors in safer driving.

## Nancy Rentner Again Chosen Managing Editor of Lawrence College Weekly Paper

Miss Nancy Rentner, 375 Harden st., has been chosen to continue for a second year in the position of managing editor of Lawrence college's weekly newspaper published by the students at Appleton, Wis. This position includes secretarial, research and administrative work. Miss Rentner has served formerly

as a reporter, news editor and desk editor.

A third year student, Miss Rentner is listed on the high honor roll and has been chosen to membership in the honorary societies of Sigma and Po Sigma. She is affiliated with Kappa Delta, social sorority.

An overheated space furnace set fire to the wall at the Adolph Baxter home of Lake avenue, Sex Subdivision on the west shore of Channel lake Saturday. The Antioch Fire department brought the fire under control and limited the loss to about \$50.

Kneeling will keep you in good standing.

## Widows of War Veterans May Qualify for Pension

Springfield, Ill., Jan. 30—The Illinois Veterans' Commission today urged widows of World War I veterans, who were disqualified for pension benefits from the government due to income limitations, to apply for 1958 payments if they anticipate an income below the set limitation.

Pension benefits are granted widows who meet all qualifications and whose income is less than \$1,400 without dependents or \$2,700 with dependents.

Eligible widows who file a statement of anticipated income may again be placed on the pension rolls.

Widows of World War II veterans may also qualify, provided the veteran was receiving or entitled to receive compensation at the time of death, even though the veteran's

death was not service connected.

All widows who feel they may be entitled to pension benefits are urged to visit their nearest IVC Office. The Service Officer in charge will provide the necessary application forms and will assist in their completion.

In Lake county, veterans should contact the Illinois Veterans' Commission Service Officer at 108 S. Genesee street in Waukegan.

The Office is open Monday through Friday between the hours of 8:30 a. m. and 5 p. m.

## H. S. English Faculty

(continued from page 1)  
in the amount of composition to be offered is virtually impossible.

The staff at Antioch High feels that the efficiency of the total program in English instruction could be improved in several ways:

a. More students should realize their need for improvement in English and should take full advantage of the opportunities offered them during their high school career.

b. Unified standards among the grade schools who send students to this high school could increase the efficiency of English instruction in the high school.

c. The teacher load at Antioch High, which now surpasses the four daily classes of twenty-five students-per-class maximum recom-

mended by the Illinois Association of English Teachers, should be reduced from the present load of five daily classes with a minimum of twenty-five students.

The English department, which meets regularly for the purpose of co-ordinating the activities of classroom teaching, agree on these objectives:

Improved effectiveness of oral and written expression, of comprehension in reading, and of appreciation for literature.

Students complete the pattern of

freshman, sophomore, and junior English in order to meet the English requirement for graduation. A fourth year of English is an advanced course chosen as an elective by many college-bound students. Speech I and Speech II likewise are elective courses which are open to juniors and seniors. Remedial reading classes are provided for beginning students who have special problems in English. These students move into regular English classes when they have shown marked improvement.

## Bird Ventriloquist Curious Creature Of Panama Jungles

WASHINGTON, D. C.—In Panama jungles there is a bird ventriloquist.

This curious creature, the gray-headed dove, is described by Dr. Alexander Wetmore, former Secretary of the Smithsonian Institution and now Smithsonian research associate, in a publication on the birds of Isla Colón, Panama. Dr. Wetmore reports an extensive study of the bird life of this Pacific convict island.

The ventriloquist, he says, was one of the most common birds in the Colón forests.

"They live and feed on the ground," he reports, "usually two or three together, rising to low perches on logs or branches when flushed, if not too badly frightened. Occasionally I had random glimpses of them, walking with bobbing heads among the shadows, or standing completely motionless, when it was difficult to distinguish them in the dim light of their haunts."

"Some of the males were calling, a single hooting note, so highly ventriloquial that we never succeeded in following it to see the actor perform though we were certain of the source. Usually the birds when calling appeared to rest on low branches near the ground, where they were completely concealed. When we came too near they became silent and flew or walked away."

An interesting little bird was the yerbero, or yellow-faced grassquit. It was a creature of pastures and the edge of the forest, congregating especially where tall grasses have ripening seeds. "They feed," says Dr. Wetmore, "by balancing on the grass heads as these sway and bend beneath their slight weight. At headquaters dozens came to feed about the mill that hulled the rice. They were completely tame and often came hopping about the feet of men sitting on benches."

## TV's Effects On Children Not Bad

CHICAGO—Contrary to popular belief, television's effect on school children is not all bad, Northwestern University studies have shown. In fact, children's strong interest in television may be an asset, if television watching is handled properly in the home, according

to Paul Witty, Ph.D., director of the psycho-educational clinic, Northwestern University, Evanston, Ill.

Each year since 1949 the Northwestern clinic has studied the TV viewing habits of more than 2,000 children in the Chicago area. Children, their teachers, and their parents have been interviewed, Witty said.

By the spring of 1950, after TV's first appearance in 1949, 43 per cent of the children interviewed had TV sets at home. In 1951, 68 per cent had them, and in 1957, 98 per cent had them. In one school, only one child did not have a TV set at home.

## Wandering Patients Suffer From Syndrome

CHICAGO—Patients who travel from hospital to hospital faking startling symptoms to gain admission may have Munchausen's syndrome.

A case of the syndrome was outlined in the Journal of the American Medical Association by Dr. John S. Chapman of the State University of Iowa College of Medicine, Iowa City. He said his is the first reported American case, although the condition has been reported frequently in England.

In 1951 an English physician "somewhat facetiously" applied the term Munchausen's syndrome to "perennial peregrinating problem patients" because "their wide travels and fanciful histories are reminiscent of the travels and adventures of fiction's Baron Munchausen," Dr. Chapman said.

## Accident Rate Rises Among Pre-School Group

NEW YORK—Better protection against accidents is urgently needed for America's preschool children.

The proportion of accidental deaths to the total number of deaths in the 1-4 age group has increased from 12 per cent to nearly 30 per cent in two decades, it has been reported. While the death rate from disease in this age group was being reduced by four-fifths—from 417.3 to 82.4 per 100,000—between 1934-35 and 1954-55, the corresponding decrease for fatal accidents was much smaller—from 56.5 to 33.1 per 100,000.

**Our Income High**  
NEW YORK—The aggregate real income of more than 160 million Americans today probably exceeds the combined income of the 600 million people living in Europe and Russia and far surpasses the total income of the more than one billion inhabitants of Asia.

## Flu Victims Need Adequate Diet

CHICAGO—Overly-restricted diets during flu and in the recovery stage following a respiratory disease may lead to other health problems, according to a leading nutritional authority.

Flu victims may spend up to two weeks in bed with the symptoms of severe colds, respiratory and flu-like infections. During this time, these patients are often on inadequate diets. Dr. James R. Wilson, Chicago medical nutrition consultant and former secretary of the Council on Foods and Nutrition of the American Medical Association, has this to say:

"The U.S. Public Health Service, as of the middle of October, reported the cumulative number of respiratory illnesses at 50,700,000. Many of these patients rely

on self-medication. They stay for too long on an inadequate diet.

"As a generalization, the key to a good diet is eating a variety of wholesome foods which will supply the things you need for nutritional health. Such good diets should include meat, milk, enriched bread or toast, cereals, fruits and vegetables, all in the quantity the patient can eat. Plenty of water is indicated. "All too often weakness and lassitude occur after respiratory infections—particularly when dietary standards have been lowered. The person who has eaten sensibly during illness is more likely to weather the storms of possible nutritional complications. Influenza—Asiatic or otherwise—with its consequences, can result in many physical disorders that a proper diet might prevent."

A preliminary estimate from the U.S. National Health Survey indicates that almost 12 million new cases of acute respiratory diseases involving at least one day in bed occurred during one week ending October 19.

Dr. J. R. Wilson

## COUNTY ZONING NOTICE STATE OF ILLINOIS COUNTY OF LAKE

TO WHOM IT MAY CONCERN:  
PUBLIC NOTICE is hereby given to all persons in the Town of Antioch, Lake County, Illinois, that a public hearing will be held on February 25, 1958, at 1:30 P. M., in the Village Hall, Antioch, Illinois, relative to a proposal to vary the terms of the Lake County Zoning Ordinance, or to reclassify by amendment thereto, from the F-Farming District, to the B-1 Business District, the following described real estate, to-wit:

A parcel of land of the North West quarter of the South East quarter of Section 19, Township 46 North, Range 10, East of the Third Principal Meridian, described as follows: Beginning at a point in the center of State Bond Issue Route 59, said point being 350.1 feet Northeastly of the center of said Route 59 and State Aid Route 18; thence Northeastly continuing along said center line of Route 59, 250 feet; thence East approximately 260 feet to a point on a line which is the continuation of the Northeastly boundary line of the property owned by Louis J. Nielsen; thence Southwesterly to a point which is the East and Northeastly corner of the property owned by Louis J. Nielsen aforesaid; thence West 270.5 feet to the place of beginning, in Lake County, Illinois.

As a result of the petition of PEDER C. TOFT, which petition is on file and available for examination in the office of the below named Board, Court House, Waukegan, Illinois.

All persons interested are invited to attend said hearing and be heard.

## Economic Balance Is Forecast For Coming Year 1958

CHICAGO—The year 1958 will be a year of economic balance and stability, with neither a rapid expansion or serious decline, the Committee on Trends and Economic Policies of the United States Savings and Loan League forecast recently.

"The outlook," said the Committee, "is for a fairly stable period of business activity at a high level, with any declines in some businesses being offset by gains in others. The year may not prove to be attractive to businessmen who fear more competitive markets or to workers who prefer a more active labor market, but it should be a year of good but not rapidly rising employment, continuing high incomes and reasonably stable prices bringing definite gains in real incomes to consumers."

"Capital spending appears to have leveled out and may decline slightly. The index of industrial production which is currently standing at 144 of the 1947-49 average seems likely to stay close to this level or decline slightly in the immediate future. Prices in both the wholesale and consumer areas are tending toward stability. The immediate dangers of inflation appear to be over. Thus a year of relatively stable business activity seems to be in prospect."

The Committee noted that total gross national product is at an all-time high, amounting to an estimated annual rate of \$439 billion in the third quarter of the year, compared with an annual rate of \$413 billion in the comparable quarter a year ago.

## Black Ink Was No Post Office Panacea

LOS ANGELES—Postmaster General Arthur Summerfield may have his woes with a department that is knee-deep in red ink—but in 1788 America's Postmaster General found he couldn't please folks even when he had ledgers showing a surplus of cash.

Research by Dr. Robert A. Rutland, assistant professor of journalism at the University of California, Los Angeles, into post office records at the time the Constitution was ratified reveals that Postmaster General Ebenezer Hazard was a harried official.

His department had a surplus of \$1,839 in 1787, and \$929 in the first quarter of 1788. Despite this, he couldn't please Congressmen, or the public.

The post office debate at that time wasn't over red or black ink, but over the use of stagecoaches or post riders for conveying the mail. Hazard favored riders, claiming that he was saving thousands of dollars by using them instead of the lumbering stagecoaches.

## Turkey Builds King-Size Span Across Bosphorus

WASHINGTON—One of the longest suspension bridges in the world is being built across the Bosphorus at Istanbul, Turkey.

Linking Europe to Asia, the 4,396-foot span rises as a new symbol of Turkey's unique place in world affairs. The ancient land of Asia Minor is western in spirit though its people are Moslems; it is the only country holding membership in the North Atlantic Treaty Organization and the Baghdad and Balkan pacts.

This keystone nation is slightly larger than Texas and just as dry in places. The population numbers some 24,000,000, of whom the pastoral Kurds are the largest minority.

Of next-door neighbors, Turkey has many. Her territory in European Thrace borders upon Greece and Bulgaria. Easterly borders are shared with the Soviet Union and Iran. On the south Turkey has a short common frontier with Iraq and a long frontier with Syria.

## Insecurity: Ancients Also Had Their Troubles

LOS ANGELES—Do electronic brains, suspended government contracts, and the threat of automation give you a sense of economic insecurity?

Dr. Arthur Patch McKinlay, professor of Latin, emeritus, at the University of California, notes that Antiphones, an Athenian playwright of the 4th century, B. C., advised his hearers (in one of his 300 dramas) as follows:

"Anyone who counts on a secure livelihood is very much mistaken. A war tax snatches all that he saves—or he loses everything in a law suit."

**Helping Uncle Sam.** LEAVENWORTH, Kan. — Students in a seventh grade social-science class here recently opened a public subscription for funds to "get a man-made moon into space before too long."

The youngsters asked for donations of 10 cents, planned to send all money collected to the United States Treasury.

## Laikas Have Long History of Real Service to Man

WASHINGTON—Laika, the late space-flying passenger of Russia's Sputnik II, was named for a canine family that has a long history of working for and with man.

The Laikas belong to the Old World branch of the ancient Spitz group that includes all sled dogs. They are closely related to the Malamute and Eskimo dogs, popularly called Huskies, of Arctic North America.

In varying degrees, Eastern and Western dogs share typical Spitz characteristics of broad skull and tapering muzzle; erect, pointed ears; tough, hairy feet; heavy coat frilled around the neck; and plumed tail arched over the back.

In Russia, the word Laika is a general term for almost any sled dog found between Lapland and far eastern Siberia, says the National Geographic Society. To distinguish specific breeds, the name of home regions or tribal masters is usually added—for example, the Kamchatka, Ostiak, or Bashkir Laika.

Among Eastern sled dogs, the breeds most familiar to Westerners are the fluffy, snow-white Samoyed of northwest Siberia and the Chukchi, or Siberian Husky, from the extreme northeast.

Both Samoyeds and Siberians Huskies are handsome, versatile animals that have been favorites at dog shows and sled-racing contests since their introduction into England and Alaska some 50 years ago.

## Film Series On Hearing Problems

PITTSBURGH—More than 3,500,000 persons in the United States have a hearing problem, public health experts estimate.

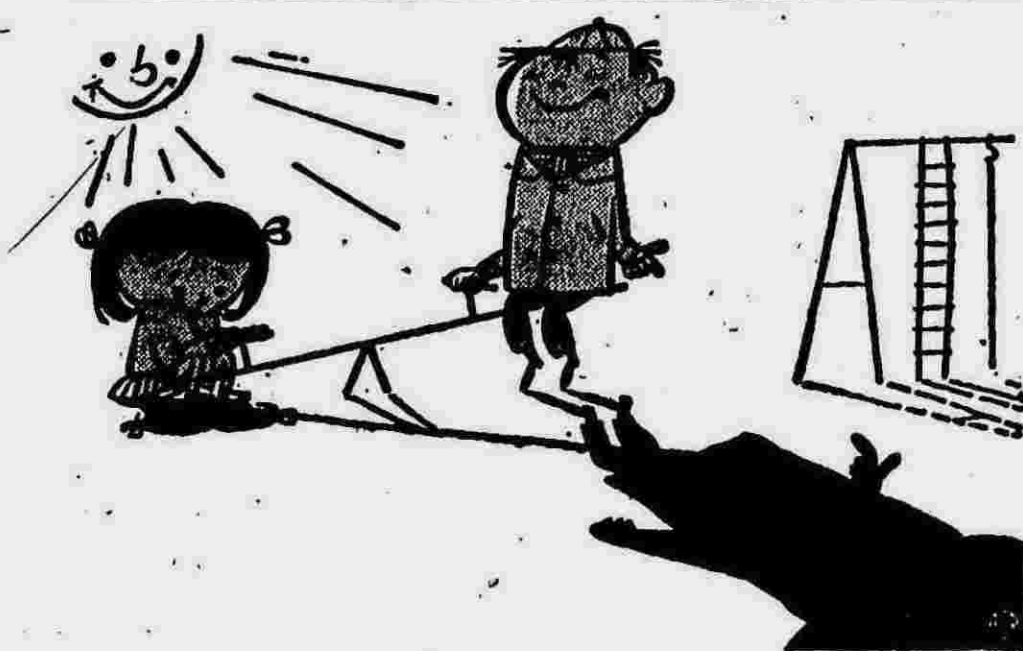

Many suffer impairment of hearing as a result of exposure to industrial noise.

This problem is the subject of a new series of three half-hour full color motion pictures entitled "NOISE AND HEARING."

Part One, "How We Hear," defines the loss of hearing problem in terms of public health and safety, explains the mechanics of hearing, and illustrates various types of hearing impairment.

"The Nature of Sound," the second film, explains the physics of sound and its measurement in terms of frequency and intensity.

## Food Sense—Not Nonsense

### Up In The Air About Size?

When is size not a measure is a tantalizing riddle. One answer comes from the stroller-set. Bigger babies are not always healthier babies. Even in early life, size is not a true measure.

To judge a child or man by his size is as much an error as to mistake his shadow for his true measure. Not everyone is destined to be a Goliath. Height did not help Goliath when he tangled with David, who packed his punch in a slingshot. What-over his size, each man or child packs his own special punch, be it courage, ability to create, athletic prowess, his own brand of vitality. Whatever his aim, there's a good chance he can reach the top of the heap, although his longest shadow may not be Goliath-like.

The key to producing a race of stalwart men seemed to be at hand when it was noted that overfeeding stimulated growth. The hope was short-lived. While

and explains some of the terminology used in this field. The probable mechanism of hearing loss is considered.

Part Three, "Noise Control," presents methods of industrial noise measurements and analysis, and tells of ways to control harmful noise through elimination, insulation, isolating of the source, or through personal ear protection.

## Mexicans Find Colas Substitute for Water

LOS ANGELES—Carbonated colas are replacing pulque as the national drink of Mexico.

Credits for this phenomenon don't belong to any high-powered advertising campaign but to that of Mexico's existence—polluted water.

According to Dr. John A. Crow, professor of Spanish at the University of California, Los Angeles, polluted water is still the main cause of disease of the digestive tract in Mexico.

"The abnormally high death rate due to enteritis and kindred ailments is directly attributable to unclean drinking water," Dr. Crow said. "This explains why bottled carbonated drinks have become so popular that thousands of middle class and wealthy families buy whole cases at a time and drink nothing else."

"On every country road you will find little shacks where carbonated drinks are sold," Dr. Crow, author of several books on Mexico and Mexican literature, said.

## Increasing Traffic Toll Brings Record Claims

NEW YORK—The mounting traffic toll is certain to bring a record number of life insurance death claims from motor vehicle accidents in 1957, with a record amount paid out for this cause, the Institute of Life Insurance reports.

In the first nine months of the year, 34,000 such claims accounted for payments of \$82,000,000. This compares with \$71,000,000 under 33,000 claims in the like period of last year and \$53,000,000 under 27,000 claims five years ago. At the current rate, the 1957 total will be more than \$110,000,000 under 46,000 claims.

**Volcano Found**  
LONDON—Soviet arctic explorers have discovered an active underwater volcano near the North Pole, according to Moscow radio. Prof. Yakov Gakkel told a meeting in Leningrad of the discovery during studies of the underwater Lomonosov Mountain Range, the radio said.

"We've been going steady now for 37 years. For the last time, WHEN are we getting married?"

Drivers are warned that glasses have a dangerous effect on vision. That is, if they've been emptied several times.

## Longer Lasting Immunity From Animal Diseases

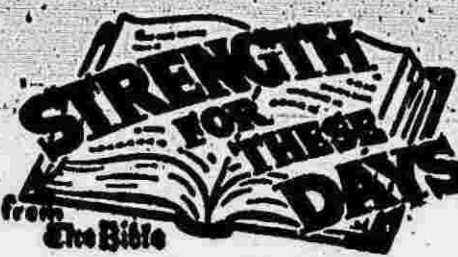

New bacterins will soon enable you to give your livestock better protection against erysipelas and leptospirosis.

Recent approval has been given for use of a concentrating agent which, when added to the bacterin, extends the length of time the bacterin gives protection. Available only through veterinarians, it has three big advantages, according to a report in the February issue of Successful Farming magazine.

This new concentrating agent allows a greater concentration of antigen in a dose. It is now possible for a 5-cc dose of bacterin to be reduced to a 2-cc dose without impairment of its liquidity. There is no reduction of antigenic properties.

Because a smaller dose is needed and since the concentrating agent is not foreign to the animal's body, there are fewer abscesses at the injection point, and almost no lameness.

One shot gives the hog protection against erysipelas to market weight, the magazine says. The manufacturer claims a 30-per cent increase in length of immunity over present products.

And we know that all things work together for good to them that love God... (Romans 8:28.)

It is wonderful to meet, on memorable occasions that are all too infrequent, a person who truly loves God and obeys His commandments every hour of every day. Such a one radiates love and joy, peace and harmony, strength and goodness, and is really blessed and fulfilled. We can all be like that—why aren't we?

With a record tonnage of U. S. coal going abroad these days, it is interesting to note that Pocahontas coal from West Virginia was the first American bituminous to gain world recognition, almost a century ago. Now coal from many seams in many states goes to the export market daily.

"A hammer is something a woman uses to drive a nail, after she's ruined the heels of her shoes," Margaret Schooley.

The Norfolk & Western Railway, one of the nation's leading coal carrying railroads, bought 4,000 coal cars of 70-ton capacity in 1956 and if coupled together these cars would make a train 31 miles long. The road has on order 5,500 cars or enough for a train 42 miles long.

Following their organization Nov. 10, 1775, U. S. Marines first served as a unit aboard the USS Cabot in December 1775. They were paid approximately \$7.00 per month and equipped with musket and cutlass.

## Don Coombs, River Forest, With 277 Game Leads in Men's Singles at Antioch Recreation

Antioch's Men's Singles, at Antioch Recreation, the biggest event in prize bowling in Lake County got off to an interesting start last weekend with 549 persons toting the pins. The tournament will continue this weekend.

Heading the individual standings with a remarkable 277 game in his second frame, Don Coombs of River Forest, Ill., has set a fast pace. His 683 of actual wood plus his 52-pin handicap gave him 735 total.

The leaders so far are:

1 Don Coombs, River Forest, Ill.	206-277-200—683 & 52 Hdcp—735
2 John E. Markee, Oak Park, Ill.	242-210-209—661 & 46 Hdcp—707
3 Ed. Manning, Westchester, Ill.	176-247-211—634 & 50 Hdcp—684
4 Robert Kraft, Antioch, Ill.	191-179-276—646 & 34 Hdcp—680
5 Ted Zimmerman, Des Plaines, Ill.	199-223-220—642 & 36 Hdcp—678
6 Bert Redmond, Waukegan	223-196-215—634 & 40 Hdcp—674
7 Sam Mitchell, Waukegan	179-213-208—600 & 72 Hdcp—672
8 Bob Pindexter, Milwaukee	222-191-243—656 & 12 Hdcp—668
9 Philip J. Skoff, Waukegan	244-179-223—646 & 22 Hdcp—668
10 Clark McIntyre, Des Plaines	206-213-178—597 & 70 Hdcp—667

## Mrs. Augot Boehm, 85, Former Resident of Antioch, Dies Mon.

Mrs. Augot Boehm, 85, 2722 North Western Ave., Chicago, died February 3 at the home of her son, Russell in Chicago, following a lingering illness. She was born January 3, 1873 at Christiana, Norway. She came to America at the age of nine years, settling in Chicago, afterward moving to Lake Villa in 1914. She lived in Antioch for twenty years, returning to Chicago two years ago.

Mrs. Boehm was preceded in death by her husband, Albert, in 1926 and by a daughter, Mrs. Frances P. Koppen, in 1956.

Survivors are three sons, Albert F. of Lake Villa; Fred M. of North Chicago; and Russell J., in Chicago; three daughters, Mrs. Mae Spiegel, Chicago; Mrs. Florence R. Walker, Lake Villa; and Mrs. Beatrice G. Bodden, Lake Geneva, Wis.; and one brother, Harold Olson, Northbrook; 17 grandchildren and 32 great grandchildren.

Funeral services were held at 1:30 today (Thursday) at the Strang Funeral Home, with the Rev. Edmund Hood of St. Ignatius Episcopal church officiating. Interment was in Angola Cemetery, Lake Villa.

## SCOUT NEWS

The Lakeside Council meeting, set for Jan. 27, was postponed to Monday, Feb. 24. The meeting will be held at the Scout House in Antioch at 8 p. m. The speaker, Miss D. McCarthy, unable to attend on the new date set, will visit the Council in the near future.

Mari-Anne's of Antioch, who has the official Girl Scout shop in the Lakeside Council, was visited Thursday, Jan. 30, by Miss R. Redman of the National Equipment Service, St. Louis, Missouri, and Mrs. E. Erickson, Council president.

A "workshop" will begin Tuesday, Feb. 11, at the Village Hall in Lake Villa for leaders, co-leaders and committee members. Working with clay, stencils and linoleum blocks are a few of the projects that will be worked on in the Arts and Crafts field, under the direction of Mrs. Lloyd Cowell and Mrs. John Hawse, trainers. The sessions will run from 9:30 a. m. to 2:30 p. m.

**Observe Boy Scout Week**  
Boy Scouts, celebrating the 48th anniversary of the founding of the organization, will observe Boy Scout Week starting tomorrow.

Cub Scouts will attend the church of their choice in uniform Sunday, going in groups with their leaders.

The Holy Name Society will serve breakfast to the Cub Scouts immediately following the 7:30 a. m. mass.

**Pack Meeting Largely Attended**  
Pack No. 80 had its January pack meeting on Thursday, Jan. 30. Despite all the colds and flue, the pack was well represented. Earl Beeser, chairman of the Scout-o-rama committee of Pack 80, announced that the pack will participate in the Scout-o-rama again this year.

The Scout-o-rama will take place at the Lake County Fairgrounds, routes 45 and 120, from 2 to 8 p. m. Saturday, March 1.

Tickets were distributed to the den mothers, who will in turn pass them out to the boys. Committee Chairman George Pierce announced that a new den has been formed, Den 6, Mrs. Kay Schaefer, den mother.

Cubmaster Mike Wojnowiak an-

nounced that the annual blue and gold dinner will be held on Feb. 16. A graduation ceremony was held for Richard Byrne of Den 1, who graduated into Boy Scouts. He was presented his Webelos badge, graduation certificate, and Scout neckerchief in a very impressive ceremony. Other awards given were as follows:

Kenny Kasel—1 gold arrow, 2 silver arrows under wolf; Terry Drucker, 1 gold arrow, 1 silver arrow under wolf; Tommy Wojnowiak—1 silver arrow under bear; James Lienz—denner's bars; Terry Witkowski—denner's bars.

## BOWLING

### Ten Pin Topplers Tuesday, Feb. 4

Gibbs & Jenssen had high team series, with games of 735-713-729—2177 total.

Hazelman's also won all three games from Tuttle Mink.

Gibbs & Jenssen won two games from Adolph's.

The Van Pattens won two games from Art's Paint Store.

### Fly By Night Mixed League Wednesday, Feb. 5

Jim's Service Station had high team series of 703-772-708—2183.

Adele Sorwell was high individual scorer with games of 133-182-188 for a 503 total.

Jim's Service Station won two games from Antioch IGA.

Pfaff's Needlers beat the Four Aces all three games.

Old Hickory won two games from Wilson's Laundromat.

County School Supt. W. C. Petty, is recovering from a severe case of flu at his home, 1038 Spafford st. Mrs. Petty was stricken a week ago Tuesday, and then Mr. Petty became ill on Friday. "I was never sicker in my life," he admitted. He is now able to be out of bed, and may be out in a few days. Mrs. Petty made a speedier recovery.

## St. Peter's Church Hosts Arch Diocesan

The North Lake County District meeting of Catholic Women of the Arch Diocesan of Chicago was held at St. Peter's church, Wednesday. The Rev. Fr. Henderson gave the address of welcome. More than 100 guests, representing the sixteen parishes of Lake County, were in attendance. Monsignor Thomas J. Fitzgerald, executive director, and Mrs. Peter Joyce of the National Council were also present. Reports were given by the different chairwomen of the various activities, of the different parishes.

Mrs. Dudley Kennedy of Antioch parish, reported on the Volunteer committee. Mrs. Joseph De Stefano served as hostess president and Mrs. Chard of Grayslake presided at the meeting. The Women of St. Peter's Altar and Rosary Society served refreshments following the meeting. According to Fr. Henderson the meeting was a big success.

## Band Parents Assn. Entertained Tuesday By Pupil Ensembles

Five different ensembles of Antioch Grade school children played selections before the Band Parents' Assn. Tuesday evening at the school.

They played selections they will present in the district contest to be held in March at the Beach Park school in Newport township.

It was announced at the meeting that there will be a valentine roller skating party February 11 at the Twin Lakes Roller Rink. The public is invited. Busses will leave the school at 6:30 p. m., and return at 9:30 p. m.

### Addresses Antioch Teachers

George Holms, psychiatric social worker for the Lake County Health clinic, with office in Victory Memorial hospital nurses' home, spoke before the Classroom Teachers Assn. of Antioch Township High School Tuesday. The program, was arranged by Frank Denison.

### Seeks Business Zoning

A public hearing has been set for 1:30 p. m. Feb. 25 at the Antioch Village hall in which Peder C. Toft is asking the Lake County Zoning Board to rezone land on Rte. 59 near the Louis J. Nielsen property at Grass Lake road from farming to B-1 Business. Toft plans to go into business of an unannounced kind.

## Feb. 26 Filing Date For High School Board

February 26 will be the first filing day on which petitions may be filed for the Antioch Township High School Board of Education. March 22 will be the last day for filing for the election which will take place April 12.

The terms of Lester Hamlin, Lake Villa, president, and Harold Wilson, rural Antioch, secretary, will expire this year. Successors are to be elected for three-year terms.

Wilson will be a candidate to succeed himself, but Hamlin has not declared his intention yet.

"At this time I am not inclined to run, but I may change my mind," Hamlin told the News.

Petition blanks may be obtained now from Secretary Wilson at his upholstery shop on rte. 173 or at his home in Felter's Subdivision.

## Women Republicans Hostesses to Mundt At Evanston Feb. 12

Mrs. Horace Vaile, Lake County chairman of the Women's Republican Club of the 13th Congressional District has extended an invitation to all residents of Antioch and the surrounding area to attend the next meeting of the club on Wednesday afternoon, Feb. 12, in the Evanston Woman's Club, 1702 Chicago Ave., Evanston, to hear a talk by U. S. Senator Karl E. Mundt of South Dakota.

Among the local women active in this club are Mrs. W. J. Murphy and Mrs. W. C. Petty of Antioch and Mrs. James Simpson and Mrs. John Stiehr of Wadsworth, all of whom are members of the Advisory Board.

The meeting is scheduled to open at 1:30 with a short business session at which the two co-chairmen, Mrs. Vaile and Mrs. Alverth Stewart of Cook county, will preside.

In considering its winter meeting, the club decided it was very appropriate to observe the birthday of Abraham Lincoln by bringing to this District a distinguished statesman whose knowledge of public affairs and personal accomplishments can inspire greater understanding and appreciation for our government. Three times Senator Mundt has been the recipient of the Annual Awards by the Freedoms Founda-

### Eleven Take State Test

Eleven students from Antioch Township High School took the Illinois scholarship test at Lake Forest Saturday.

They are Caron Marotta, Dorothy Jach, Patricia Jesse, Nancy Wetterberg, Judith Pyles, Robert Gable, Paula Zeien, Thomas Sanhamel, James Berke, Art Hanke, and Gwenn Royer.

tion of Valley Forge for his outstanding contributions to our American Way of Life.

"A special invitation to hear Senator Mundt is extended to fathers and older boys and girls who may be having a holiday on Feb. 12," said Mrs. Vaile, "and we hope many will take advantage of this opportunity to hear such an eloquent speaker and authority on governmental affairs."

Did you know that every time you choose a Jewel Pot Roast, you're getting not only U.S. Government grade "Choice" beef... but the very top of this high grade, too!

Because you have to be choosy about the meat you serve your family, your Jewel Meat Buyers feel they have to be just as choosy about the meat they offer you. They won't even consider anything less than the one high grade—U.S. Choice. Then they select only the best of this top grade for you. It's the Jewel way of assuring you of the same, tender beef meal after meal.

Isn't it nice to know, when buying beef for your family, your Jewel cares enough to bring you only the very best!

## Up-to-Date Building Code Can Help Community Growth

An up-to-date, well-administered building code can bring new life to a community, Stuart Chase writes in the February Reader's Digest.

By freeing builders to use the new structural materials and techniques, it cuts construction costs. It gives architects, engineers and builders freedom to exercise ingenuity and creativity. Because it tends to check depreciation and raise property values, it gets enthusiastic support from bankers, real-estate men, town officials and insurance people—in addition to homeowners.

In the article, "How Up-to-Date Is Your Town's Building Code?" Chase reports that authorities in at least 30 states and 25 foreign countries are studying ways to make their requirements simpler and more flexible. An outdated code, or one controlled by special interests may mean deterioration, even disaster; a flexible one can lead to orderly development of a community even during a population boom.

The most successful experiment along these lines, Chase says, has been worked out by the state of New York. It is of the performance type: that is, instead of specifying what type of roofing or shingle must be used, for instance, it tells the builder what his roof must do: survive for 20 years without repair. He may use any material which will meet that requirement.

New Jersey, North Carolina, Massachusetts and Connecticut, among others, are experimenting with such forward-looking performance codes, but none carries the idea as far as New York has done.

The New York code is purely voluntary: any town in the state may adopt it by local vote (250 have done so, so far) with inspection fees and penalties for noncompliance set locally. A field agent service is provided to help local officials; but the agents never step into the local scene as policemen.

Requests about the New York code have come from two dozen foreign countries, including Communist Poland. This, says the Digest, marks the first penetration of the Iron Curtain on the housing front. The article is condensed from the National Municipal Review. The author lives in Georgetown, Connecticut.

## Brotherhood Week February 16 - 23

Nationwide observance of Brotherhood Week, sponsored by the National Conference of Christians and Jews, will be held February 16-23. President Dwight D. Eisenhower is honorary chairman of the observance. Louis B. Seltzer, Editor, Cleveland Press, is national chairman.

The 1958 theme is Brotherhood for Peace and Freedom—Believe It!—Live It!—Support It!—that people shall live as one family of man. Special events in more than 10,000 communities throughout the

United States will mark Brotherhood Week. Programs will extend the work of the National Conference which stimulates year-around programs in schools and colleges, churches and synagogues, labor-management and community organizations, and in newspapers, magazines, motion pictures, radio and television.

The purposes of Brotherhood Week, according to Dr. Everett R. Clinchy, president of the National Conference, are to give people an opportunity to re-dedicate themselves as individuals to the ideals of respect for people and human rights. "We try to dramatize the practical things that people can do to promote understanding and realization of those ideals. Brotherhood Week is essentially a campaign against the prejudices and bigotries that disfigure and distort religious, business, social and political relations."

The big promotion during Brotherhood Week, according to Dr. Clinchy, will be to urge people to do more than give the principles of brotherhood mere lip service. "By getting to know the other fellow, the one who has a different creed, race or national origin from yours, by understanding his viewpoint, his ambitions and goals, you will find old prejudices disappear. You'll find that we are all one family made strong and great by the very differences that so many times divide us as individuals and groups. You'll learn to accept or reject a person strictly on his merits as a human being and not because he happens to be different from you."

"We hope that during Brotherhood Week people will begin to get to know and appreciate each other—to make Brotherhood a year round practice."

Mr. and Mrs. Joe Balza, Kenosha, Mr. and Mrs. Donald Wienke and sons, Lon and Brian of Bristol, and Herman Frank spent Sunday with Mrs. William Harms.

The W. S. C. S. Sewing club met at the Methodist church.

Mr. and Mrs. Floyd Gyger, Jr., and family spent Sunday with Mr. and Mrs. Harry Purdom, Huntley, Ill.

Mr. and Mrs. Norman Rasch and family were Sunday dinner guests of Mr. and Mrs. Henry Leitling and Mrs. Charles Rasch, Kenosha.

Mr. and Mrs. Norman Rasch and Mrs. George Robinson called on August Rasch at Racine County Home, Sunday.

Mrs. Charels Rasch, Kenosha, is spending a few days with Mr. and Mrs. Norman Rasch.

Beverly Rasch is spending her midsemester vacation with her parents, Mr. and Mrs. Norman Rasch.

Mr. and Mrs. Clyde Cates attended the funeral of an aunt, Mrs. Ida Inskip, at Champaign, Ill., Friday.

## U. of I. Food Report

Chicago Food Market Feb. 3-8  
CHICAGO—The economists' viewpoint that prices drop more frequently than they rise is well taken this week with lower costs noted for major beef, pork and poultry meat items.

Cattle, hog and sheep dressed prices were described as very depressed and sharply lower, although the late-week closings—being felt at retail this week—were at a con-

## All from One Acre—1957 Corn Champ

When Henry Penning of Decatur, Michigan, learned that he had been named National Champion in the 1957 Selected 5-acre DeKalb Corn Growing Contest, he thought it would be interesting to actually see just how his 203:47 bushel yield would look "laid out" on the ground. Penning, who is of Dutch descent, won over 4789 contestants in the 20th year of this nationwide competition. His winning field was planted in celery in 1954-55 and in corn in 1956. Penning raises corn, celery, mint and potatoes. Farms in Penning's area are of muck soil and generally small in acreage, but intensively farmed for high yields.

siderably higher level for January than at any time during the past three years.

The gimmick to be remembered, however, is that the frequent price drops are offset by fewer but greater price increases. A period of small declines can be expected following the gains reported quite consistently throughout January.

The new shift, as revealed in the weekly University of Illinois consumer service survey of metropolitan area outlets, turns up these meat

value opportunities: Pork roasts, chops, beef steaks, fryers and bacon. New crop capons are attractively priced in many stores but not in sufficient supply to qualify for a consensus value rating.

Other value considerations for the week ending Feb. 8 include: Eggs, little changed; frozen and canned vegetables, sugar and shortening, considered outstanding values in processed foods.

Fryers that turned up sharply within the last two weeks are now

reported in better supply with lower price tags showing for the first time in weeks.

Fresh fruit and vegetable supplies, prices and quality generally do not compare favorably with year-ago, but best values relatively speaking (not forgetting weather setbacks) are noted in February's supply calendar: Fruits—apples, avocados, bananas, grapefruit and oranges; Vegetables—broccoli, cabbage, carrots, celery cabbage, kale, mushrooms, parsnips, potatoes and shallots.

For secondary values add lettuce, beets, yellow onions and lemons. Indications are that tomatoes may be lower priced this week.

Canned vegetables most likely to supply the most for the money on market situations are corn, asparagus, green beans, peas, and spinach. Cherries lead the canned fruit parade, traditionally being bargain priced in February—and this year is no exception.

## Today's MEDITATION

The World's Most Widely Used  
Devotional Guide

## The Upper Room

Read Luke 18: 18-27.

Come, follow me. (Luke 18: 22.)  
The great Filipino martyr, Dr. Jose Rizal, once expressed his disappointment over the aimlessness of many of his countrymen. In the face of a national crisis, he referred to them as "stones wasted in the fields without becoming parts of any edifice."

Leave a stone alone by itself in the field, and it is trampled under the feet of men, or perhaps becomes lost in dust or mud. Pick it up and make it part of a floor, or wall, or house, and as long as that house stands, that stone has usefulness.

If we take our seemingly insignificant lives and build them into the cause of the kingdom, our lives will have meaning.

In the face of today's great opportunities for investing our lives in this worthwhile cause—seeking to salvage humanity from hate and fear—we are so often found floating aimlessly around. We are overburdened by the petty problems of our personal existence. God helping us, let us forget self and deepen our discipleship.

## Prayer

Our Father, we thank Thee for calling us to be disciples of the Lord Jesus Christ. Help us to hear His call and obey. Open our eyes to the wonderful opportunity to become part of Thy eternal kingdom. Grant us the will to learn of Christ and the courage to follow Him. In the Master's name. Amen.

## Thought for the Day

"Except a grain of wheat falls into the earth and dies, it remains alone."  
Ricardo E. Fernando (Philippines)  
Daily Bible Reading—II Timothy 2: 1-26.

# P.T.A.'s to Celebrate Founders Day

## 11-Million Members Mark Organization's 61st Year

On February 17 the world's largest voluntary service organization will celebrate its 61st birthday.

This is the National Congress of Parents and Teachers, whose nearly eleven million members are active today in P.T.A.'s throughout the 48 states, the District of Columbia, Alaska, and Hawaii. They will mark the organization's Founders Day with a variety of activities aimed at strengthening and expanding parent-teacher work in their own communities.

Mrs. Rollin Brown, of Los Angeles, president of the National Congress, points out that these 49,000 P.T.A.'s have set the pattern for parent-teacher associations in areas where U.S. armed forces have established American communities overseas. And parents of school children in other nations have sought help from the National Congress in forming similar groups to promote education in their countries.

Founders Day activities, scheduled for February 17, will honor two women whose imagination and concern for children planted the seed for this still-growing organization.

It was in 1897 that Alice McLellan Birney and Phoebe Apperson Hearst conceived the idea of a National Congress of Mothers to promote the health and welfare of children by helping their parents learn more about how to fulfill a child's physical and spiritual needs.

They worked hard to interest other women in their aims and approached the date they had set for the organizing meeting with hopes of seeing a hundred or so delegates arrive at Washington's Arlington Hotel. But "if only twenty-five are there," admitted Mrs. Birney, "I shall be satisfied."

More than two thousand men and women turned out!

Their enthusiastic reception of the aims, as outlined by the founders, and of the lectures, discussions and conferences that made up the first meeting set the pace for a great national movement. Soon state congresses were founded, and before long the original "mothers' congress" was broadened to include the

concept of parents working with teachers.

Since that founding meeting, the National Congress of Parents and Teachers has written an impressive record of achievement. It includes these activities in behalf of children:

Donated hundreds of thousands of dollars in scholarships to students planning to enter the teaching profession.

Initiated a program for the periodic health appraisal of well children from birth through high school—an extension of the Summer Round-Up campaigns under which nearly three million preschool children have received physical examinations.

Promoted successfully thousands of school building projects, including preliminary surveys, educational campaigns, and school bond issues.

Alerted the public to violations of child labor statutes, stressed the need for improved juvenile detention facilities and supported sound adoption laws.

Helped establish child-care centers for children of working mothers and worked to raise the standards of all child-care establishments.

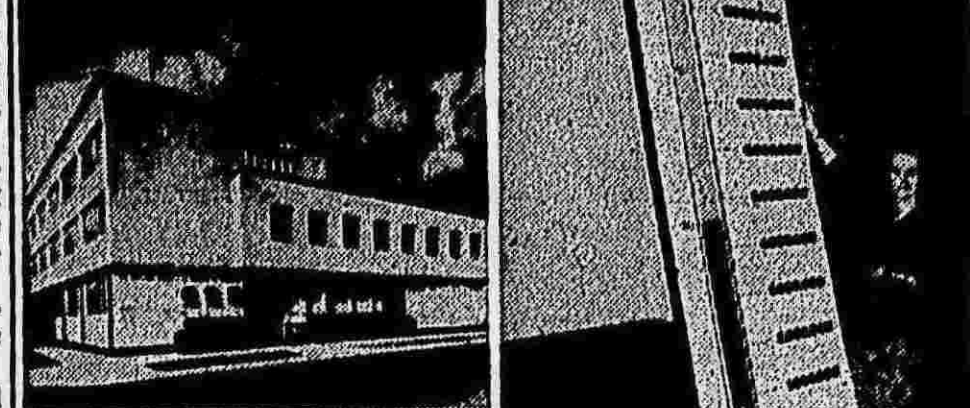

Established and supported public kindergartens until public support could be secured.

Pioneered in establishing and maintaining thousands of hot school lunch programs long before the public in general became aware of their importance.

Helped to keep the schools open during the years of war and depression—an achievement for which it received a special citation from the National Education Association.

The first Board of Managers of the National Congress of Mothers (the National Congress of Parents and Teachers since 1925). Left to right: seated, Mrs. John R. Lewis, vice-president; Mrs. Adlai Stevenson, vice-president; Mrs. Theodore W. Birney, president and founder; Mrs. Phoebe Apperson Hearst, vice-president and co-founder; Mrs. William L. Wilson, chairman of the Reception Committee; and Mrs. F. Benjamin Johnston.

Standing: Mrs. Henry J. Finley, chairman of the Press Committee; Mrs. James H. McGill, chairman of the Entertainment Committee; Mrs. A. A. Birney, chairman of the Committee on Arrangements; Mrs. H. W. Fuller, chairman of the Transportation Committee; Miss Mary Louisa Butler, corresponding secretary; and Mrs. Harriet A. McLellan, chairman of the Literature Committee.

Headquarters of the National Congress of Parents and Teachers stands today at 700 North Rush Street, in Chicago. The building, dedicated in 1955, won an award from the Chicago chapter of the American Institute of Architects and the Chicago Association of Commerce and Industry for excellence in architecture.

Mrs. Rollin Brown, president, uses giant thermometer to illustrate how membership in the National Congress has more than doubled since 1947.

uations of government assets. This current report is the third in solving the mystery. There is Committee has made. Prior to such first report made in 1955 and \$18 billion over the second report issued some mystery, perhaps unsolvable, in 1956.

## Illinois State News

Fishing in Illinois has gone up \$1 a person under legislation passed by the 70th General Assembly. The fishing license is now \$2. Director Glen D. Palmer of the State Department of Conservation declared the increase will show its effect in improved angling.

The extra dollar has been earmarked for permanent improvements in connection with water development and fishing. None of the extra money can be used until July 1, 1959, because it must be appropriated by the next session of the legislature which will be in session during the first six months of 1959.

Hunting and fishing licenses in Illinois expired January 31. The director issued a friendly warning to ice fishermen and those in areas of the state with open water to be sure they have a new license. Fox hunters and those who use the shooting preserves would do well to secure a new hunting license, too, Palmer said.

Governor William G. Stratton announced that his fourth annual State Park Photo contest will again begin April 1 and close August 1.

For the fourth consecutive year, amateur photographers will have opportunity to make their spring and summer family outings at Illinois parks and memorials pay for themselves.

The governor said that a total of \$500 will be awarded to winners. The prizes will be presented to the winning amateur photographers by the governor at the Illinois State Fair, August 8-17.

Active duty assignments given to 51 of the 75 men graduated Saturday from the Illinois State Highway Police Training Academy bring the force to its authorized full strength of 1100 men, it was announced by Chief William H. Morris.

Twenty-four of the 75 graduates have been placed on the eligibility list and will be called to duty as vacancies occur.

Governor William G. Stratton revealed that while the number of vacationers who came to Illinois from other states dropped slightly in 1957, the prospect of a substantial increase in 1958 was very good. "Illinois had 9 1/2 million vacationers last year," the governor said, "but we expect a substantial increase this year when Illinois will be commemorating the centennial of the Lincoln-Douglas debates."

Debate centennials will be celebrated at Ottawa, Aug. 21-24; Freeport, Aug. 27; Jonesboro, Sept. 10-

15; Charleston, Sept. 18; Galesburg, Oct. 7; Quincy, Oct. 11-13; and Alton, Oct. 15. Springfield will commemorate the centennial of the famous "House Divided" speech on June 18.

In addition to these centennials, Beardstown will have a re-enactment of the Duff Armstrong "Almanac Trial" on May 6 and 7.

The governor also pointed out that although the number of out-of-state vacationers to Illinois decreased in 1957 the amount they spent climbed to \$775 million, a total higher than the amount spent in 1956.

Carl G. Hodges, supervisor of the Illinois Departmental Information Service, the state's travel promotion agency, said that his statistics indicate that vacationers aren't traveling as far, but that they are spending more time at vacation spots of their choice.

Governor Stratton said he was pleased with results of the state's travel promotion because "not only do vacationers increase retail business for Illinois merchants, but they contribute huge sums to Illinois tax revenue through the state motor fuel tax and sales tax."

First contracts in Governor William G. Stratton's 1958 Illinois highway construction program were awarded by the state Division of Highways.

Director E. A. Rosenstone of the Department of Public Works and Buildings announced that projects in 10 counties and valued at \$1,036,969 were the subjects of contract awards. Bids on the proposals were received January 21.

## TAX FACTS

Your home may be your "castle" and have cost you a tidy sum, but if it belonged to Uncle Sam, its value would hardly be worth mentioning. The U. S. government's realty and personal property were listed at the end of last month at \$250 billion. However, this total falls far short of the actual value by millions and millions of dollars. For example, the government

owns a 1,366 acre post in San Francisco called the Presidio, and carries it on the books as being worth one dollar. The 500 acre Corry Field naval air base at Jacksonville, Florida, is carried at "no value" at all.

The government measures the value of its property by original acquisition cost. Therefore, because Governor's Island in New York and the Philadelphia Naval Yard were sold to Uncle Sam for one dollar each, this is all the land

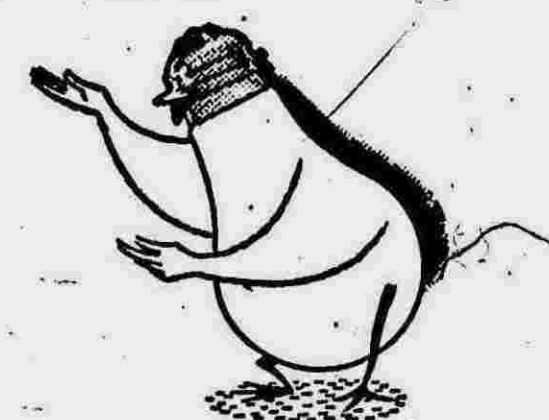

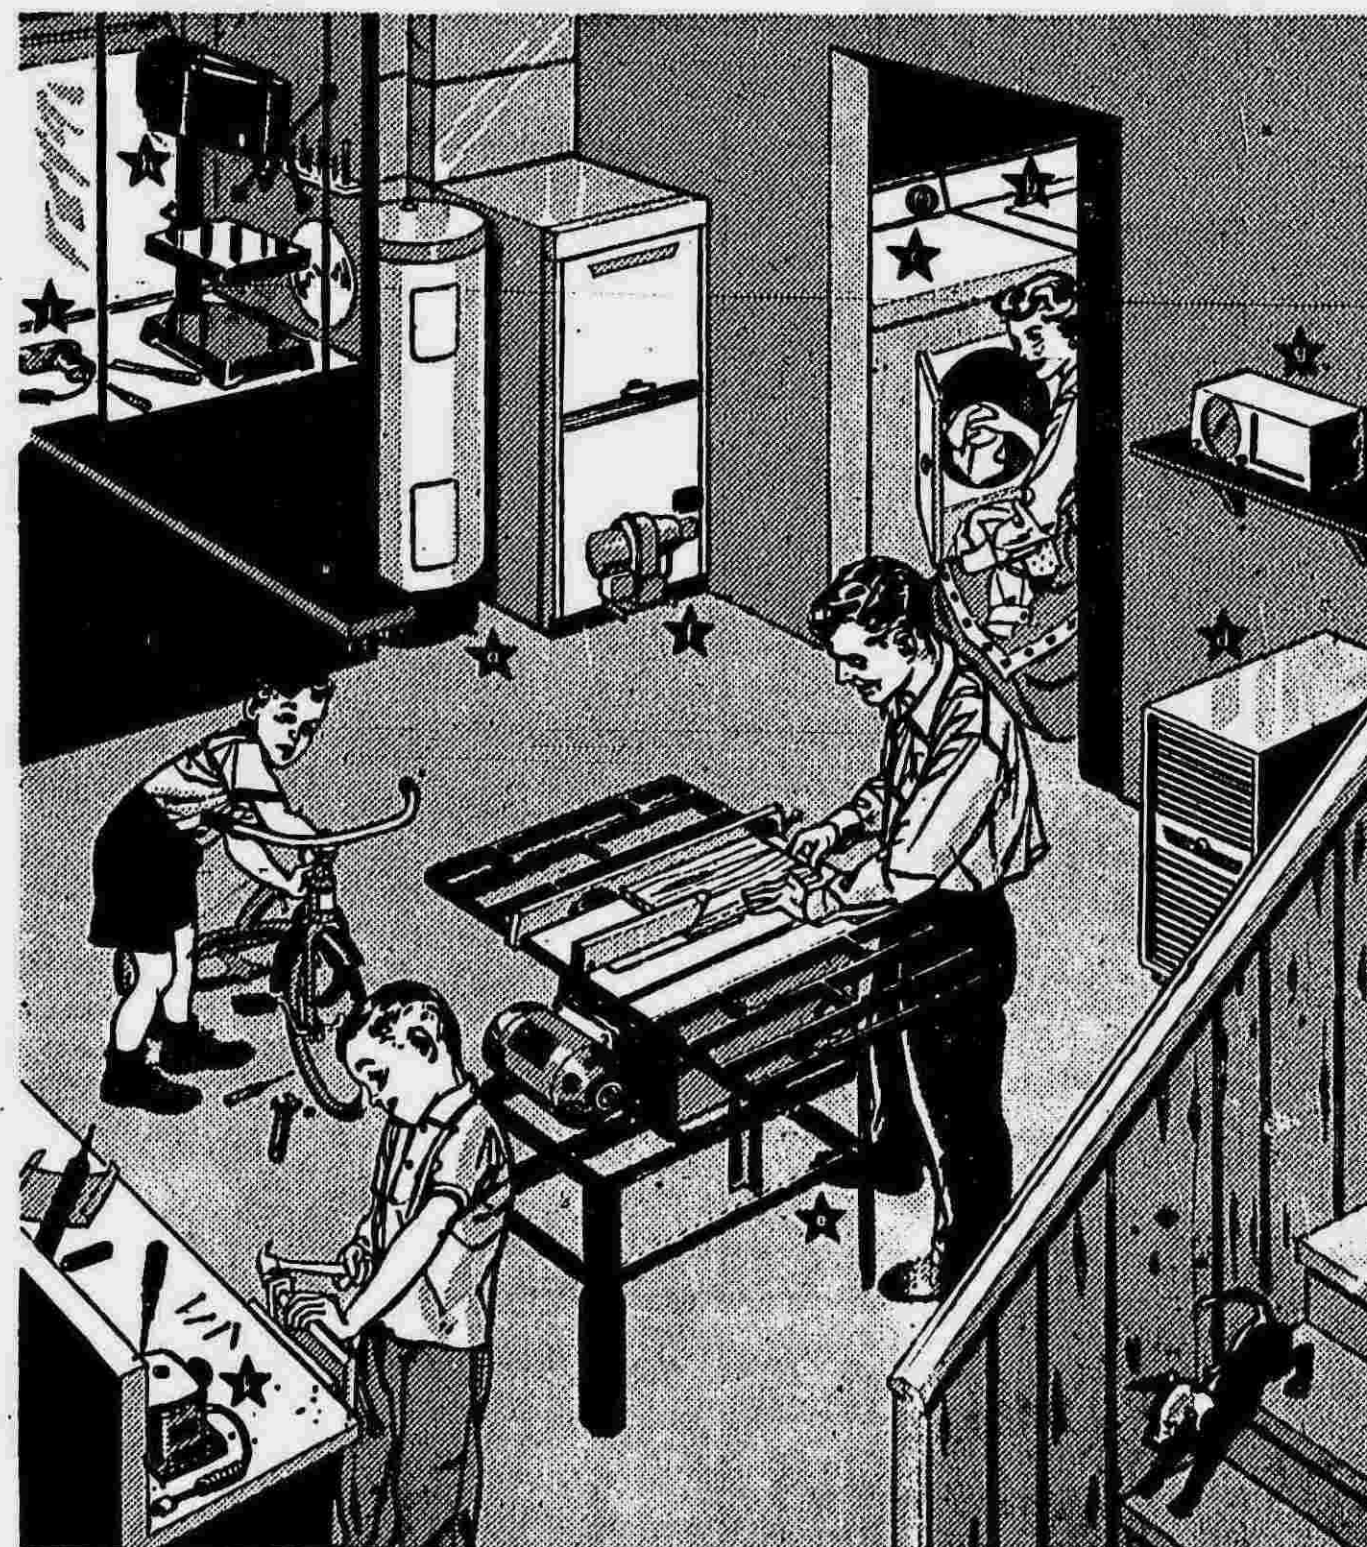

is worth on Federal inventories.

The House Government Operations Committee, which made a report in December, 1957, found recorded assets totaling \$64 billion for real estate and \$186 billion in personal property. Personal property as construed by the Federal government includes everything which is not land itself.

The House Government Operations Committee is to be commended for trying to compile a report that would show more realistic eval-

## How many of these electric helpers have you added since 1947?.... asks LITTLE BILL

□ a □ b □ c □ d □ e □ f □ g □ h □ i □ j □ k

You're an average family if—in the postwar years you've added six new electrical appliances. Shown here are a few typical examples.

This is why you're using far more electricity nowadays than you did a few years ago. And why life is a lot easier. But of all the things you buy today, electricity has gone up less than almost anything else.

So, while your bill may be a little higher, electricity is actually doing nearly twice as much work for the money now as it did years ago.

See how little it costs to run each of these electric helpers.

a—Electric water heater—2 1/2 gallons 1¢. New, fast electric models deliver all the hot water a big family needs 24 hours a day.

b—Automatic washer—3 loads 1¢. Saves hours of work every week.

c—Electric Dryer—just 6¢ a load is all you pay to dry the clean electric way!

d—Dehumidifier—1¢ for 4 hours. Keeps basement dry, keeps tools from rusting.

e—Power saw—works a solid hour for 1¢. Cuts straighter, faster.

Other appliances shown include: f—Furnace blower—1/4¢ an hour. (Keeps heat even, saves you many dollars on fuel.) g—radio—5 hours for 1¢, h—drill press—an hour and a half of work for 1¢, i—ceiling fixture—5 hours of light for 1¢, j—electric hand drill—works 2 1/2 hours for 1¢, k—electric sander—only 1¢ for 2 1/2 hours of help.

### Millburn

Mrs. Frank Edwards, Correspondent  
Phone: Eliot 6-3323

Services at Millburn Congregational Church Feb. 9 include Sunday School at 9:30 a. m. and church services at 9:30 and 11 a. m.

Sunday evening service, the fourth in a series of movies on the Book of Acts, the movie "No Respector of Persons" sponsored by the Pilgrim Fellowship, will be held at the church at 7 p. m. Everyone is welcome.

Seven members of the Pilgrim Fellowship attended the Youth Rally at the Mundelein church Sunday afternoon and evening.

The Rev. and Mrs. L. H. Messersmith entertained the church board members and their wives at a buffet supper at their home Friday evening.

The February Committee of the Ladies' Aid will serve a cafeteria beef dinner to the public at the church Thursday, Feb. 6. The committee in charge of the dinner are Mrs. Roy Bonner, chairman; Mrs. Lyman Thain, Mrs. Harley Clark, Mrs. Mary Derer, Mrs. James Foster, Mrs. Garrett Trout, and Mrs. Ray Boller. Dinner starts at 12 noon. The business meeting will be held in the church parlors at 1:30 p. m.

More than one hundred persons attended the moose meat dinner sponsored by the Men's club and the Mylo club last Wednesday evening at the church. The moose meat was furnished by Mr. and Mrs. Walter Runnigan.

Baptismal services were held Sunday morning for George John De Haan, son of Mr. and Mrs. George DeHaan. Sponsor was a niece of Mr. DeHaan, Donna Mirretti.

Mr. and Mrs. Bernard Prange and daughter, Gloria, of Lake Forest were dinner guests of Mr. and Mrs. Herbert Prange Monday evening.

Mr. and Mrs. Andrew Carlson of Gurnee spent Saturday evening at the Herbert Graham home.

Mr. and Mrs. Glen Cain of Waukegan spent Friday afternoon at the Charles Lucas home.

Mrs. Lyman Bonner and daughters, Nancy and Kathy, were dinner guests of Mr. and Mrs. Ellis Gott of Waukegan Tuesday.

Miss Joyce Moore spent Friday and Saturday with Mr. and Mrs. George Bascomb of Waukegan, Wis.

Miss Judy Paulsen of Evanston hospital spent Saturday with her parents, Mr. and Mrs. William Paulsen.

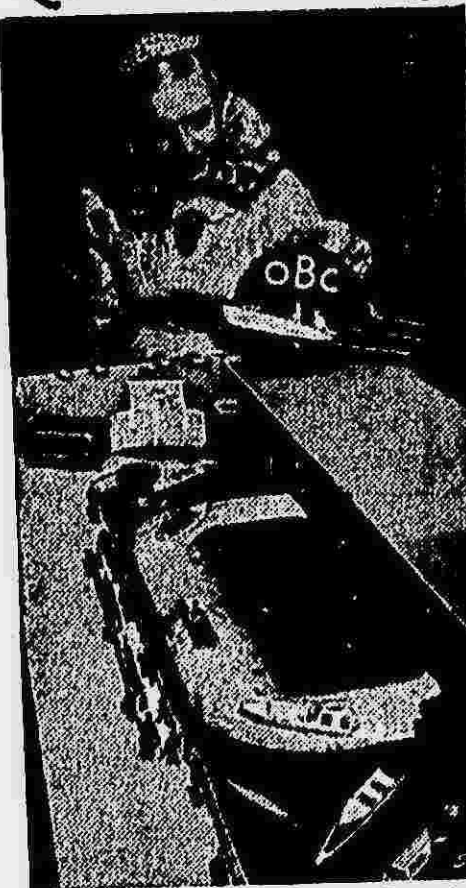

Mr. and Mrs. Raymond Kriz of Antioch spent Sunday evening at the home of Mr. and Mrs. Charles Lucas.

Herbert Prange has been confined to his home the past week due to illness.

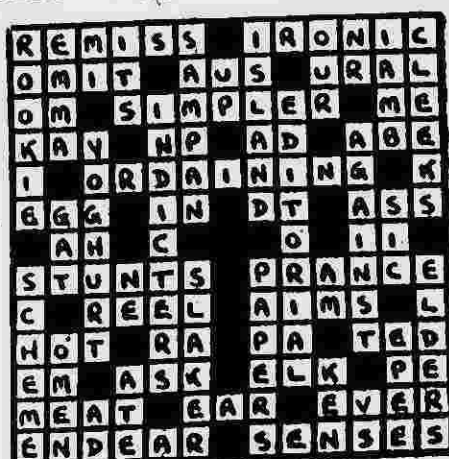

Mr. and Mrs. Richard Waldron of Round Lake spent Wednesday with Mr. and Mrs. Herbert Graham.

The Study Group met at the home of Mrs. Charles Lucas last Thursday morning. The group will meet at the home of Mrs. Harley Clark Feb. 13, at 9 a. m.

### Queen of Boating

Glamorous ABC television star Mary Hartline surveys a model of a 244-foot indoor river, a part of the mammoth Boats-On-Parade display at the 26th annual Chicago National Boat Show, Feb. 7-16 at the International Amphitheatre. Covering the giant hall's entire south wall, the exhibit includes a continuous parade of outboard boats traveling the manmade river under their own power. Miss Hartline, herself the owner of a 53-foot cruiser, was named "Queen of Boating" to reign over the Silver Jubilee Show. A \$2 million fleet of 800 pleasure craft, from tiny punts to giant ocean cruisers, make the Chicago Boat Show the world's largest.
